Letter of Transmittal for 2020 Comprehensive Annual Financial Report

June 28, 2021

To the Honorable Mayor, Town Council and the Citizens of the Borough of Chambersburg, Pennsylvania.

The Comprehensive Annual Financial Report of the Borough of Chambersburg for the year ended December 31, 2020, is hereby submitted for your review. This report represents the commitment of the Borough of Chambersburg to adhere to nationally recognized standards of excellence in financial reporting.

Borough of Chambersburg staff prepared all statements, schedules, and other presentations in this report. Management is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. We believe that the data presented in this report is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the Borough. Further, we believe that all disclosures necessary to enable the reader to gain an understanding of the Borough of Chambersburg's activities have been included.

The Comprehensive Annual Financial Report incorporates financial reporting standards established by Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Statement No. 34 was developed to make annual financial reports of governments more comprehensive and easier to understand and use. All required elements of Statement No. 34, including retroactive restatement of general infrastructure assets are now required in this report and are included in this report as they were in the previous years' reports.

Please review the Management's Discussion and Analysis (MD&A) which is located in the Financial Section of the Comprehensive Annual Financial Report. The MD&A is management's analysis of the municipality's financial position based on currently known facts as of the date of the auditor's report. It is required to precede the financial statements and provide the following analysis:

- Management's analysis of the organization's financial position and results of operations
- Comparison of current year assets, liabilities, revenues and expenses to the prior year
- Explanation of significant changes in fund based financial results and budgetary information
- Description of capital asset and long-term debt activity during the year
- Description of currently known facts, decisions or circumstances expected to have a significant effect on the future overall financial activities of the municipality

THE BOROUGH OF CHAMBERSBURG

General Information

The Borough of Chambersburg, one of the earliest permanent settlements west of the Susquehanna River, was founded in 1764 by Benjamin Chambers on land granted to him by the Penn Proprietors. Chambersburg was incorporated as a Borough by an Act of the State Legislature on March 21, 1803. It is located on Interstate 81 in the south-central region of Pennsylvania and is the county seat of Franklin County. The Borough covers an area of 6.58 square miles and lies approximately 50 miles southwest of Harrisburg, 25 miles west of Gettysburg, and 22 miles north of Hagerstown, Maryland. It is the historic and commercial center of the region characterized by varied small and medium industrial enterprises, a rich agricultural area, and residential growth.

According to the U.S. Bureau of the Census, the Borough's population increased from 20,268 to 20,832, between 2010 and 2019, an increase of 2.78 percent during the period. 2020 decennial census data is not yet available.

Municipal Services and Facilities

The Borough is a total service community providing a broad range of services for the citizens of Chambersburg, including the following general government functions: police and fire protection, emergency medical services, street construction and maintenance, storm water management, parks and recreation facilities and code enforcement.

The Borough is unique in Pennsylvania in that it owns and operates electric, gas, water, sewer, sanitation, storm sewer, and parking facilities. The Borough is the largest municipal electric system, and the only electricity producing, consumer-owned, system in the Commonwealth of Pennsylvania. The Chambersburg Electric Department is in its twenty-seventh year of its second century of service to the citizens of Chambersburg, and the Borough's Gas Department has been providing municipal gas for over 50 years. On August 20, 1875, the citizens of Chambersburg voted in favor of a bond issue to construct a water system, and sewer service was initiated on August 1, 1912.

Governmental Organization

The Act of Incorporation in 1803 provided for "the Burgess and Town Council of the Borough of Chambersburg as the one body politic and corporate in law". The title Burgess was changed to Mayor in 1961. The Mayor is elected at large every four years. His duties are outlined in the Borough Code and include the oversight of the Police Department. The Mayor votes on actions being considered by Town Council only to break tie votes.

The legislative and executive authority of the Borough is vested in a ten-member Council. Two councilpersons are elected from each of the five wards, one councilperson from each ward being elected at each biennial election. Council members are elected to overlapping four-year terms. The council enacts legislation to provide for Borough services, adopts budgets, levies taxes, borrows money, licenses and regulates businesses and trades, and performs such other duties consistent with the Borough Code. The presiding officer of the Council is the President of Council, who is a member of Council, and elected to that position by a vote of Council members.

By an ordinance approved in December 1975, Town Council created the office of the Borough Manager. The Borough Manager is the Chief Administrative Officer of the Borough and is responsible to the Town Council as a whole for the proper and efficient administration of the affairs of the Borough. The manager is appointed for an indefinite term and serves at the pleasure of Council.

The Director of Finance, who is appointed by the Borough Manager, is the Chief Financial Officer of the Borough. In the Borough of Chambersburg, the role of the Director of Finance and that of the Borough Treasurer – who is appointed by Town Council, are filled by the same individual, who exercises the powers granted to the Borough Treasurer position under the laws of the Commonwealth of Pennsylvania. As such, the Director of Finance is charged with the responsibility of receiving, disbursing, and maintaining custody of all funds of the Borough, and serves as the Pension Funds Chief Administrative Officer. The Director of Finance advises the Borough Manager and Town Council concerning financial matters and assists the Borough Manager in the preparation of the annual budget.

Departmental Highlight – Chambersburg Emergency Services Department

Each year we spotlight one of the Borough's many departments by reviewing the history, activities and accomplishments of the selected department. Last year's report focused on the Recreation Department. This year's report highlights our Emergency Services Department, which includes Fire and Ambulance service.

The Chambersburg Fire Department has a long and rich history of protecting lives and property in the Borough of Chambersburg. The first organized fire company in Pennsylvania was started in Philadelphia by Benjamin Franklin in the year 1777. Shortly after, the need was recognized locally, and the Friendship Fire Company was organized March 31, 1780 under the name of the United Fire Company. Over the next one hundred years additional volunteer organizations were organized, such as the Junior Hose and Truck Company, Goodwill Fire Company, Franklin Fire Company, and Cumberland Valley Hose Company.

Since the beginning, the mission has always remained the same, and continues throughout today's operations. That mission is to deliver superior fire prevention and suppression, and to protect the lives and property of the citizens that live in, work in, or visit the Borough of Chambersburg. Though the equipment and techniques to accomplish this mission have drastically improved, the department as a whole continues to respond every day, to emergencies ranging from structure fires to vehicle accidents.

Over the years, the department has expanded our operations to be an "all-hazards" department, which responds at a moment's notice to any emergency that the firefighters may be called to. In many cases, the time of arrival is under five minutes from the time the fire apparatus is dispatched. Over the past five years, call volume has remained on a steady increase, and last year the Chambersburg Fire Department fire apparatus responded to over 850 emergency calls. These responses are handled by a dedicated crew of men and women who are career and volunteer firefighters that have completed some of the most skilled and highest level firefighting training available in the country.

In addition to the daily emergency responses, the department's personnel are highly engaged in fire prevention activities and community training. Each year, over 400 commercial fire inspections are completed. Additionally, firefighters speak to over 10,000 community members and school students, annually, to educate them on how to be fire safe in their workplaces, homes, and schools.

Each year, the department focuses on the safety of the community by preventing fires, or via early detection of one, should it occur. In 2019, CFD and the American Red Cross collaborated in a "Sound the Alarm" event to get more working smoke detectors into residences. Since then, over 300 new working smoke detectors have been installed in, or provided to, residences across the Borough. Additionally, the department has worked hand-in-hand with the Borough Gas Department to supply carbon monoxide detectors to homes and businesses that may be required to have them. Though the overall impact of these efforts may never be fully measured, the firefighters know that each day their efforts save lives.

On August 15, 1924, a meeting was held by the Goodwill Fire Company to discuss the purchase of an ambulance by the Borough of Chambersburg. This ambulance would be used to service the Borough of Chambersburg and surrounding areas. After this groundbreaking meeting, an ambulance was purchased for \$ 3,500 and was built on a Garford chassis by Chambersburg's own H.B. McFerren Company, located on Harrison Avenue. The new ambulance was officially put into service on May 15, 1925, and the first patient was transported on June 4, 1925.

In August of 1975 the ambulance service went from volunteer department specific, to being under the umbrella of the Chambersburg Fire Department. The ambulance service provides lifesaving benefits to the residents of Chambersburg and the surrounding areas. Even though much has changed over the past 95 years, ambulance service is still provided with the same professionalism and dedication that occurred when the first patient was transported. Today, the ambulance service is primarily staffed by full-time and part-time career staff Firefighter/Emergency Medical Technicians, but the department also has five dedicated volunteer members that assist with staffing. The Chambersburg Fire Department has three Basic Life Support ambulances that are licensed through the Department of Health. One of these ambulances is in service 24 hours a day, seven days a week, and responds out of the Headquarters Fire Station (130 North Second Street). The second ambulance responds out of the McKinley Street Fire Station (261 East McKinley Street) and is on-duty Monday through Friday 6:00 am to 6:00 pm. The third ambulance is utilized as a reserve if another is due for maintenance.

The two ambulances that are in service respond to around 4,500 calls annually, and are some of the busiest units in Southcentral Pennsylvania. Recently, the call volume has been increasing each year, around three percent (3%).

In addition to providing lifesaving ambulance services, the staff is also utilized to cross-staff the fire apparatus during certain fire related emergencies.

Throughout the years, funding for emergency medical services has been a financial struggle. Each year there is over \$ 1.5 million in uncollectable funds, due largely to limitations that are placed on billing services through Federal mandates. Medicare and Medicaid both place stipulations on EMS agencies in regard to billing amounts for emergencies, and unfortunately, this can be quite burdensome when trying to cover operational expenses each year. In early 2020, an ambulance service fee was adopted to help cover some of these operational costs. The long-term goal is to be able to continue to offer superior services without interruption, to those who live in, work in, or visit the Borough of Chambersburg.

Economic Environment - Historical

Chambersburg's history as a strong commercial center is rooted in its strategic location. It was a crossroads of commerce almost from its founding. Situated in the center of the Cumberland Valley, it became the county seat of the newly created Franklin County in 1784. Scotch-Irish and German settlers predominated the early migration into the county. The Scotch-Irish began as farmers from the sheer necessity of survival, but many drifted into political and military occupations. The methodical and industrious Germans quickly and successfully assumed the development of agriculture in the community.

By congressional resolution in 1788, Chambersburg was placed on the post route between Philadelphia and Pittsburgh. The country's post-Revolutionary War expansion to the new western frontiers was beneficial to Chambersburg. At first, pack trains, and then the stagecoach and Conestoga wagons were common vehicles of traffic through the town. The demands for the movement of goods manufactured in the East to the West and the products from the frontier were beneficial to Chambersburg. It was reported of every tenth house being used as a hostelry, with the yards being filled nightly to overflowing with wagons.

As wagon traffic increased in volume, the demand for better roads arose. Many of the state's earliest roads were undertaken by the private sector. Acceding to public demands, the State Legislature made large appropriations available for highway construction between 1814 and 1821. \$275,000 was available for improvements of sections of the Carlisle to Chambersburg and the Chambersburg to Bedford sections of the turnpikes. In 1877, thirty-nine of the eighty-eight miles of turnpike in Franklin County were on roads converging on Chambersburg. By 1944, there were 228 miles of main highways and 338 miles of improved secondary roads in Franklin County.

In 1837, the Cumberland Valley Railroad was extended from Harrisburg to Chambersburg where it joined the turnpike to Pittsburgh. The railroad extended down the Cumberland Valley and crossed the Potomac River in 1870 and eventually was extended to Winchester, Virginia in 1889.

The Pennsylvania Turnpike was completed through the County in 1940. The county had two interchanges located within the general area of Chambersburg. The development of the largest U. S. Army Ordnance distribution facility of its kind in 1942 illustrated the possibilities of the area developing as a center of distribution. Chambersburg's location in relation to seaports, metropolitan markets and industrial areas was evident from the beginning.

Economic Environment - Today

The construction of the interstate highway system in the 1960's resulted in Interstate 81 being on the eastern edge of the Borough. Chambersburg has become a magnet for distribution warehouses to facilitate the flow of goods on the East Coast. Authorities are examining their options on how Interstate 81 can be improved to handle the abundant truck traffic that transverses the highway daily. This access to major highways and railroads coupled with Chambersburg's location has created opportunities for our continued prosperity. Other factors that make the Borough a good place to do business are competitively low utility rates, quality municipal services, ample power supplies, affordable housing, a skilled and diversified workforce, a low crime rate, and a progressive school district.

The 10 largest employers operating in the Borough in 2020 were:

EMPLOYER	PRIMARY BUSINESS	AVERAGE NUMBER OF EMPLOYEES
Wellspan (formerly Summit Health)	Health Care	3,629
Chambersburg Area School District	Public Education	1,206
County of Franklin	Government	698
Ventura Foods	Food Packaging	685
Menno Haven, Inc.	Retirement Community	591
Staples	Retailing	360
F & M Trust Company	Financial Services	275
Knouse Foods	Food Packaging	274
Borough of Chambersburg	Municipal Government	239
T.B. Woods	Power Transmission Equipment	200

The Borough of Chambersburg is considered the employment center for the region. Between 24,000 and 28,000 people work in the Borough on a daily basis.

However, within just five miles of Chambersburg there are a number of significant employers that add to the vitality of the community. Those employers are as follows:

EMPLOYER	PRIMARY BUSINESS	AVERAGE NUMBER OF EMPLOYEES
Letterkenny Army Depot/Tenants	Repair Military Vehicles and Missiles/Misc.	2,826
Target Distribution Center	Distribution Warehousing	930
Martins Famous Pastry Shoppe, Inc.	Potato Bread and Rolls	669
Ulta Beauty	Distribution Center	500
Walmart	Retail	422
Ingram Book Company	Warehousing	325
New Enterprise Stone & Lime Co., Inc.	Manufacturing	240

FINANCIAL INFORMATION

Borough management has taken the initiative to prepare a Comprehensive Annual Financial Report starting with fiscal year ending December 31, 2004, and each year thereafter. The Comprehensive Annual Financial Report provides readers of our financial statements with much additional information relating to the financial condition of the Borough of Chambersburg. Among these include information regarding our local taxpayers, employers, and a plethora of similar information encompassing the past ten years. We are honored and pleased that our efforts have resulted in our receiving the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for each year a Comprehensive Annual Financial Report has been prepared. We are again cognizant of the implications of our continuing to strive for such a prestigious award and will continue to pursue it. With this award, we have been designated as having attained the "highest standards in governmental accounting and financial reporting".

Accounting/Budgetary Control System

Internal Controls. To provide reasonable assurance of the reliability of the information underlying the Borough of Chambersburg's financial statements, management of the Borough is responsible for the establishment and maintenance of an internal control system that provides reasonable, but not absolute, assurance that:

1. The Borough's assets are protected against loss and unauthorized use or disposition: and
2. Adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America

The concept of reasonable assurance recognizes that:

1. The cost of control should not exceed the benefits likely to be derived; and
2. The valuation of costs and benefits requires estimates and judgments by management

As a recipient of federal and state financial assistance, the Borough is responsible for ensuring that adequate controls are in place to ensure and document compliance with applicable laws and regulations related to these programs.

Budgetary Controls. Town Council approves an annual budget for all funds and approves subsequent adjustments to that budget as needed. The “legal level of control” is the level of detail as approved by Council in its appropriation actions and ordinances. Total expenditures and encumbrances cannot exceed the amount approved by Council at the legal level of control. Legal level of control for the Borough is based on departmental level.

A purchasing control system is maintained which generally requires that an applicable appropriation be controlled through the issuance of encumbrances, authorized purchase orders and work orders before a purchase may be made or a contract executed.

Long Term Financial Planning

The Borough of Chambersburg Capital Improvements Plan is a five-year plan reflecting the programming and prioritization of capital improvement needs beginning in the current year. The plan is not a budget, but rather a multi-year approach to capital improvements planning and analysis. The plan incorporates projects and proposals that may, in final analysis, not receive funding, or that may be programmed for a future year.

The plan defines capital projects accordingly:

- A project related to a capital asset according to the Capital Asset Policy adopted by Town Council.
- A project that adds value or useful life to a capital asset.
- A project involving buildings, facilities, land or easements as long as title does not expire in less than twenty-one years.
- A project involving buildings, facilities, land or easements as long as the useful life of such is twenty years or greater and the fair market value is greater than \$ 10,000.
- A project involving technology, vehicles or equipment as long as the useful life of such is two years or greater and the fair market value is greater than \$ 10,000.

Capital improvement needs for a particular fiscal year are budgeted in a variety of accounts due to the complexity of the Borough budget. Regardless of their placement in the budget, projects require the approval of Town Council in scheduling and appropriation. Should the project be approved in a future budget, the recommended funding source will be set. As such, the plan is subject to change as Town Council adjusts spending limits going forward.

CHANGES IN FINANCIAL POLICIES

The Borough of Chambersburg adopted new accounting guidance, Government Accounting Standards Board (“GASB”) Statement No. 84, *Fiduciary Activities*, as of January 1, 2020.

INDEPENDENT AUDIT

The independent accounting firm, Smith Elliott Kearns & Company, LLC, audited the basic financial statements of the Borough of Chambersburg for fiscal year 2020. The financial statements have received an unmodified opinion indicating that, in all material respects, the Borough’s basic financial statements are presented fairly and in conformity with accounting principles generally accepted in the United States of America. Auditing standards generally accepted in the United States of America were used by the auditors in conducting the engagement.

ACKNOWLEDGMENTS

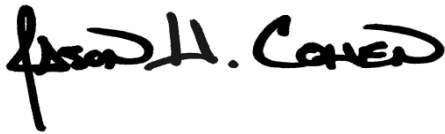

The preparation of this Comprehensive Annual Financial Report would not have been possible without the consistently meticulous hard work of every member of the Finance Department. This effort requires a significant investment of time and resources on behalf of many, above and beyond their routine responsibilities. Appreciation is also due to the Department Heads, Assistant Department Heads, Departmental Secretaries, employees of the various departments of the Borough, and our auditors Smith Elliott Kearns & Company, LLC, for their dedicated efforts in assisting in the preparation of this report.

It is important to recognize the individual and cumulative efforts put forth by the Borough's accounting division, which has continued to effectively facilitate the financial activities and the reporting requirements of the Borough, through a particularly trying 2020, due to the challenges presented by COVID-19. These individuals, as follow, are in many respects the people that are responsible for the accuracy and efficiency of our organization's business functions: Jena Bard – Staff Accountant, Gwen Sewell – Accounting Technician, Michelle Amsley – Accounting Technician, Jennifer Rutan – Accounts Receivable Clerk, Chris Roberts – Accounts Payable Clerk, and Stacy Seville – Fixed Asset Technician.

I would like to express our appreciation to our Borough Manager, Jeffrey Stonehill, who has shown continued confidence in, and consistent support of, the Finance Department. With the consistent implementation of additional new technologies and processes in the near future, it is encouraging that we have a Borough Manager/Director of Utilities at our helm, which is cognizant of both the need for, and value of, state-of-the-art technologies and industry best practices.

Finally, I wish to thank the Mayor and members of Town Council for their leadership and support, and particularly for their faith in the abilities and dedication of Borough staff to strive for, and to continue to meet, the high performance standards that have come to be the norm in our organization.

Respectfully submitted,

A handwritten signature in black ink that reads "Jason H. Cohen". The signature is written in a cursive, slightly stylized font.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Borough Council
Borough of Chambersburg
Chambersburg, Pennsylvania

REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Chambersburg, Pennsylvania, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Chambersburg, Pennsylvania, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis-of-Matter

As discussed in Note 1 to the financial statements, the Borough of Chambersburg adopted new accounting guidance, Government Accounting Standards Board (“GASB”) Statement No. 84, *Fiduciary Activities*, as of January 1, 2020. See footnote 14 for restatement for the implementation of GASB 84. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 4 through 16, the schedules related to the pension and OPEB liabilities on pages 72 through 77, and budgetary comparison information on pages 78 through 79 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Chambersburg, Pennsylvania’s basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2021, on our consideration of the Borough of Chambersburg's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Borough of Chambersburg's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Borough of Chambersburg's internal control over financial reporting and compliance.

Chambersburg, Pennsylvania

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA

Management's Discussion and Analysis - Unaudited

The management of the Borough of Chambersburg provides the following information as an introduction, overview, and analysis of the Borough's financial statements for the year ended December 31, 2020. Readers should also review the basic financial statements and related footnotes on pages 17 – 71 to further enhance their understanding of the Borough's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can first understand the Borough of Chambersburg as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Position and Statement of Activities (referred to collectively as the government-wide statements) provide information about the activities as an entire operating entity, presenting both an aggregate view of the Borough's finances and a longer-term view of those assets and liabilities. Major fund statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The proprietary funds statements are prepared on the same basis as the government-wide statements.

Reporting on the Borough of Chambersburg as a Whole

Statement of Net Position and Statement of Activities

These government-wide statements answer the question "How did the Borough, as a whole, perform financially during 2020?" They are prepared on the accrual basis of accounting, in much the same way as a private enterprise. This basis of accounting includes all assets and liabilities and takes into account all of the reporting year's revenues and expenses, regardless of when the cash was received or paid.

- **The Statement of Net Position.** This statement (page 17) reports all assets and liabilities of the Borough as of December 31, 2020. The difference between total assets plus deferred outflow of resources and total liabilities plus deferred inflows of resources is reported as "net position". Increases in net position generally indicate an improvement in financial standing while decreases may indicate a deterioration of financial position.
- **The Statement of Activities.** This statement (page 18) serves the purpose of the traditional income statement. It provides consolidated reporting of the results of all activities of the Borough for the year ended December 31, 2020. Changes in net position are recorded in the period in which the underlying event takes place, which may differ from the period in which cash is received or disbursed. The Statement of Activities displays the expense of the Borough's various programs net of related revenues, as well as a separate presentation of revenues available for general purposes.

A more detailed explanation of these statements is found in Note 1 on pages 28 - 42 in the Notes to the Financial Statements.

Reporting on the Borough of Chambersburg's Most Significant Funds

Fund Financial Statements

These statements provide the financial position and results of operations of the Borough's major funds. A fund is an accounting entity created to account for a specific activity or purpose. Major funds of the Borough of Chambersburg are the General Fund, Special Revenue Fund – Grant Program, Electric Fund, Gas Fund, Water Fund, Sewer Fund, and Swimming Pool Fund. The creation of some funds is mandated by law, while others are created by management to demonstrate financial compliance with budgetary or legal requirements. Funds are classified into three broad categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Governmental funds are used to account for “governmental-type” activities. Unlike the government-wide financial statements, governmental fund statements use a “flow of financial resources” measurement focus. That is to say, the operating statement of a governmental fund attempts to answer the question “Are there more or less resources that can be spent in the near future as a result of events and transactions of the reporting period?” Increases in spendable resources are reported in the operating statement as “revenues” or “other financing sources.” Decreases in spendable resources are reported as “expenditures” or “other financing uses.” We describe the differences between governmental funds and governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) in reconciliations presented on pages 17 and 18.

The Borough of Chambersburg maintains separate governmental funds. The governmental fund financial statements on pages 19 through 22 separately display the governmental funds considered to be major funds. All other governmental funds - the “non-major” funds - are combined into a single column. Detailed financial data for each of the non-major governmental funds is provided in combining statements in the supplementary information section of this report.

- **Proprietary funds.** There are two types of proprietary funds: enterprise funds and internal service funds.

Enterprise funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises for which either 1) the intent is that the costs (expenses, including depreciation) be recovered primarily through user charges, or 2) determination of net income is appropriate for management control, accountability or other purposes.

The Borough of Chambersburg's Electric, Gas, Water, Sewer, and Swimming Pool Funds are all considered to be major funds and are displayed separately in the proprietary fund statements on pages 23 through 25. The Borough has three other proprietary funds, Sanitation, Storm Sewer, and Parking, Traffic & Street Lights, the activities of which are combined into one column for non-major funds.

Internal Service funds - Often, governments wish to allocate the cost of providing certain centralized services (e.g., motor pools, data processing, warehouses) to the other departments of the governmental entity that use the services. An internal service fund is the appropriate accounting mechanism when it is the intent of the government to recover the full cost of providing the service, through user charges to other departments.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA
Management's Discussion and Analysis - Unaudited

The Borough of Chambersburg's six internal service funds are combined into a single column in the proprietary fund financial statements. Detailed financial data for those funds can be found in the combining statements in the supplementary information section of this report.

- **Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside of the Borough's government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Borough's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Fiduciary fund statements are on pages 26 - 27 of this report.

Other Information

Notes to the Basic Financial Statements

The notes provide additional and explanatory data. They are an integral part of the basic financial statements.

Required Supplementary Information

In addition to the basic financial statements and notes, this report also contains required supplementary information (RSI). RSI includes schedules of pension information, OPEB required schedule of funding progress and budgetary schedules for the General Fund and grant programs fund. This data is on pages 72 through 79 of this report.

The Borough of Chambersburg as a Whole

The following table presents condensed information on net position as of December 31, 2020 and 2019.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA
Management's Discussion and Analysis - Unaudited

Net position increased by \$ 2.73 million in 2020 for “total activities” compared to a decrease of \$ 1.21 million in 2019. This is a \$ 3.94 million increase in overall performance for 2020 compared to 2019 and is the result of a decrease in total revenues of \$ 3.14 million, and a decrease in expenses of \$ 7.08 million. Although offset by smaller increases and/or decreases in other funds, the decrease in total revenues is due primarily to a \$1.08 million decrease in charges for service, a \$ 1.66 million decrease in capital grants and contributions, and a \$ 1.17 million decrease in unrestricted investment earnings. The largest contributors to the year-over-year decrease in business-type activities expenses were a decrease of \$ 3.77 million in the Electric Fund’s purchase of electric energy, due to decreased customer demand, a decrease of \$ 1.29 million in the Gas Fund’s purchase of natural gas, due to decreased customer demand, and lastly, a decrease in the Sewer Fund’s capital outlay for collection system improvements in the amount of \$ 2.10 million, as a result of completing projects in 2019. The measurable decreases occurring in these three Funds is otherwise mitigated by revenue and expense variability, both within these Funds, and across others. The decrease in governmental activities is largely attributable to a decrease in Public Works expenses, as a result of decreases in snow removal and street maintenance costs, as well as a decrease in Community Development expenses.

In the Business-Type Activities transfers line item, there were \$ 2,233,411 of transfers to governmental activities. This represents net transfers from the business-type activities funds to the governmental activities funds, the majority of which (\$ 1,920,000) consists of operating transfers (Payments in Lieu of Gross Receipts Tax) from the Electric and Gas Departments to the General Fund.

The Borough’s largest governmental activities revenue source: real estate taxes, decreased by \$ 129,397 or 2.07% in 2020. There was no change in the property tax millage rate in 2020. The Earned Income Tax receipts increased by \$ 37,274 or 1.65%, in 2020, while the real estate transfer tax increased by \$ 60,009 or 10.50% in 2020. The Local Services Tax yield decreased by \$ 42,540, or 5.00%, in 2020.

Expenses of governmental activities break down as follows:

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA
Management's Discussion and Analysis - Unaudited

Total governmental expenses for 2020 were \$ 17.02 million, down from \$ 18.03 million in 2019. Public safety, which consisted primarily of police, fire, and ambulance services, comprised 65.89% of the total governmental expenses. General government expenses were 14.85%. Public works expenses, which include streets overlaying and repairs, were 10.03%. Leisure time activities represented by the Culture and Recreation portion of expenses were 8.19% of the total. Community development comprised 1.04% of total expenses.

The Statement of Activities reports expenses of each of the governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the cost of a particular program exceeds its program revenue represents the extent to which that program must be subsidized by general revenues, such as property taxes, earned income taxes, local services taxes, deed transfer taxes, and others.

The following tables and graph summarize the net cost of each program:

Expenses and Program Revenue - Governmental Activities
Year Ended December 31, 2020

Functions/Programs	Expenses	Charges for Services	Operating Grants and Contributions	Capital Grants and Contributions	Net (Expense) Revenue

The above chart and graph illustrate the priority that Chambersburg places on the safety of its citizens.

Business-Type Activities

Business-type net position increased by \$ 793,271, in 2020. Electric Department revenues decreased 4.86%, Gas Department revenues decreased 2.63%, Water Department revenues increased 1.72%, Sewer Department revenues decreased 12.40%, Sanitation Department revenues increased 8.96%, Parking, Traffic & Street Lights Department revenues decreased 61.75%, Storm Sewer Department revenues increased by 39.56%, and the Swimming Pool revenues decreased by 41.21%. The total decrease in Charges for Services revenues was \$ 1.84 million or 3.53%. The primary contributor to the reductions in both Electric and Gas revenues was a decrease in sales due to decreased industrial/commercial demand, as a result of COVID-19. The minor increase in Water Department revenues is immaterial. The significant decrease in the Sewer Department revenues was a result of no longer receiving capital expense reimbursements from neighboring Townships, as a result of the treatment plant project completion in 2019. The measurable increase in Sanitation Department revenues was a direct result of an 11% increase in the residential service rate. The large decrease in Parking, Traffic & Street Lights Department revenues was a result of decreased state and federal grant reimbursement receipts, due to limited project activity in 2020. Finally, the large increase in Storm Sewer revenue was a direct result of increasing the user fee amount, while the decrease in Swimming Pool revenues was due to decreased user fee revenue in 2020, as a result of capacity limitations due to COVID-19.

Electric Department expenses decreased by 14.56%, and Gas Department expenses decreased by 15.17%, both primarily as a result of decreased production/generation expenses due to a decrease in demand, as a result of COVID-19; Water Department expenses increased by 16.75% as a result of spending down bond issue funds on capital improvements; Sewer Department expenses decreased by 13.55% as a result of completing collection system capital improvements in 2019; Sanitation expenses decreased by 3.25%, largely due to no longer contracting with a third party for recycling collection; Parking, Traffic & Street Lights Department expenses increased by a minimal 1.70%; Storm Sewer expenses decreased by 13.98%, largely due to a reduction in engineering expenses for studies and mapping; and Swimming Pool expenses decreased by 12.75%, due almost entirely to decreases in personnel and facility operating expenses, resulting from a shortened season and limited facility capacity as a result of COVID-19.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA
Management's Discussion and Analysis - Unaudited

The following table and graph summarize the expenses and program revenues for business-type activities:

Expenses and Program Revenue - Business-Type Activities
For Year Ended December 31, 2020

	Expenses	Charges for Services	Operating Grants and Contributions	Capital Grants and Contributions	Net (Expense) Revenue
Electric	\$ 24,023,259	\$ 27,661,278	\$ 83,054	\$ 7,000	\$ 3,728,073
Gas	5,760,745	7,136,435	615,483	6,520	1,997,693

Expenses and Program Revenue - Business-Type Activities
2020

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA

Management's Discussion and Analysis - Unaudited

Individual Funds Summary and Analysis

Governmental funds focus on spendable resources and near-term inflows and outflows of those resources. As such, fund balance is generally a good indicator of net resources available for spending at the end of the fiscal year, subject to any stated restrictions on its use.

The combined fund balances of the Borough's governmental funds as of December 31, 2020 were \$ 11.65 million, as compared to \$ 9.15 million as of December 31, 2019.

The General Fund is the primary operating fund of the Borough of Chambersburg, accounting for such activities as police and fire protection, ambulance services, highways, parks and recreation, and general governmental services. The General Fund balance increased from \$ 1,953,223 to \$ 3,751,167, as a result of not initiating a transfer into the General Capital Reserve Fund in 2020 (in 2015, 2016, 2017, 2018, and 2019, un-budgeted transfers of \$ 1.1 million, \$ 1.25 million, \$ 1 million, \$ 670,000, and \$ 822,000 respectively, were made in the same manner).

Budget Variations

Operations for the Borough's General Fund resulted in an overall favorable net budget variance of \$ 1.80 million for the year ended December 31, 2020. That means that we had \$ 1.80 million more in positive net change in fund balance than we budgeted. The budget was balanced, with revenues equaling expenditures, but finished the year with an actual net surplus of \$ 1.80 million. Total expenditures exceeded total revenues by \$ 721,517, and net inter-fund transfers from other Borough funds amounted to \$ 2.52 million, creating the overall positive results of \$ 1.80 million for net receipts or "net change in fund balance".

While we had a favorable budget variance of \$ 739,595 or 4.67%, of total budgeted operating expenditures (\$ 15,831,880), we also had a favorable budget variance of \$ 1.09 million or 8.23% of total budgeted operating revenues (\$ 13,278,035). Additionally, there was an unfavorable net budget variance of (\$ 101,377) (negative), or 40.86%, of budgeted transfers out of the General Fund, resulting primarily from increases in the required contributions towards multiple departments' Workers Compensation reserves.

The favorable variance of \$ 1.09 million in revenues can be tied to the higher-than-anticipated revenues for Real Estate taxes, Deed Transfer taxes, and Earned Income taxes. On the expenditure side, the favorable variance of \$ 739,595 can be attributed to lesser than anticipated expenses in the Police Department, the Highway Department, and the Recreation Department, largely due to reduced activity in all facets in 2020, as a result of COVID-19, although this variance was mitigated by a large increase in Emergency Services expenses, again, directly related to COVID-19.

Changes in Revenue and Expenditure Levels

In looking at the performance of the General Fund for 2020, we had an overall increase of \$ 1.65 million in 2020, as compared to 2019, for the net change in fund balance (*ncfb*). In 2020, we finished the year with a positive *ncfb* of \$ 1.80 million, compared to a positive *ncfb* of \$ 147,797 for 2019. In 2020, Borough Council chose not to transfer un-budgeted surplus into the General Capital Reserve Fund (in 2015, 2016, 2017, 2018, and 2019 transfers of \$ 1.1 million, \$ 1.25 million, \$ 1 million, \$ 670,000, and \$ 822,000, respectively, were made in the same manner). Although no such transfer was made in 2020, transfers of surplus will likely resume in the future. Although the Borough insists on setting funds aside for such future needs, ultimately, as the funds in the Capital Reserve Fund, they would be available for any capital-type General Fund operations, if that were ever deemed necessary.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA

Management's Discussion and Analysis - Unaudited

In the absence of transfers to and from other departments, we would have ended the year with a *ncfb* of (\$ 721,517) (negative) for 2020, in the General Fund. Compared to the same for 2019, of (\$ 1,904,898) (negative), 2020 is \$ 1.18 million greater. In 2020 there was budgeted a net \$ 2,553,845 transfer into the general fund, whereas in 2019, budgeted net was \$ 2,920,075.

Changes in Fund Balance

The fund balance in the General Fund increased by \$ 1.80 million in 2020. This was because total expenditures (\$ 15,092,285) exceeded total revenues (\$ 14,370,768) by \$ 721,517, while net transfers, (\$ 2,519,461) from other departments, helped close the deficiency, resulting in a net increase in fund balance for the General Fund of \$ 1,797,944.

The fund balance in the Special Revenue Fund – Grant Funds, increased by \$ 18,704 in 2020. Revenues decreased by \$ 475,773 to \$ 164,325 in 2020, while expenditures decreased by \$ 481,614, to \$ 150,621. However, this net increase in resources of \$ 13,704 was added to by net transfers in, in the amount of \$ 5,000, resulting in an increase of the fund balance in the amount of \$ 18,704, related directly to receiving reimbursement for the spending down of grant funds in prior years.

The net position in the enterprise funds increased by \$ 498,805, or 0.35%, in 2020, compared to a decrease of \$ 365,947, or 0.26%, in 2019. Operating revenues in the enterprise funds decreased by \$ 1.86 million, or 3.62%. Operating expenses decreased by \$ 5.29 million, or 10.01%.

The net position of the Sewer Department decreased by \$ 1.20 million, or 2.33%, in 2020, due largely to recording \$ 3.35 million in depreciation expense. The net position of the Water Department decreased by \$ 935,576, or 4.19%, due largely to the addition of debt issuance expenses. Net position of the Gas Department increased by \$ 1.31 million, or 8.17%, primarily due to operating revenues exceeding expenses, and Electric increased this year by \$ 1.34 million, or 3.32%, also due to operating revenues exceeding expenses. Additionally, the net position of the Swimming Pool realized a decrease of \$ 128,773, or 59.97%, due to limited operation in 2020, resulting from COVID-19 restrictions, while the Other Enterprise Funds (Sanitation, Parking, Traffic & Street Lights, and Storm Sewer) increased by \$ 111,807, or 1.13%.

Also, the net position in the internal service funds increased by \$ 963,695, or 5.23%, compared to a decrease of \$ 160,596, or 0.85% in 2019. Operating revenues increased by \$ 2.31 million, or 26.50%, while operating expenses increased by \$ 289,460, or 2.74%. The increase in revenues, while mitigated or bolstered by smaller increases or decreases in other areas, is largely attributable to an increase in transfers into the Payroll Fund, resulting from the addition of several positions in 2020, in addition to increased rental payments to the Motor Equipment Fund, from contributing departments. Increases in expenses are primarily the result of increased vehicle rental payments to the Motor Equipment Department.

Capital Asset and Debt Administration

Capital Asset Activity

In 2020, Chambersburg Borough continued its ambitious multi-year plan to provide its residents, businesses, patrons, and visitors with top-notch infrastructure accommodations, via significant upgrades, by utilizing accumulated reserves in utility funds and special accounts, and financing partnerships with state and federal agencies.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA

Management's Discussion and Analysis - Unaudited

The Gas Department was active in 2020, with gas main extensions and service line improvements in order to further improve the safety of the system, as well as to serve additional customers. A major pipe replacement project was completed on Lincoln Way East. Due to ever-increasing demands for service, new gas mains were also installed in order to expand service to Suelinn Drive, Cosell Drive, Wellslee Drive, Elrock Drive, Eisenhower Drive, Parkview Drive, Lantern Lane, Hollywell Avenue, Limekiln Drive, Highfield Lane, Stonegate Court/Circle, Wilson Avenue, Roland Avenue, Beechwood Lane, and Geyer Drive. New gas mains were also extended into Greene Township, to support a Gas Transportation agreement with UGI Gas.

In 2020, in response to the COVID-19 pandemic, on May 18, 2020 Town Council authorized postponement of streets and Storm Sewer capital improvement projects originally scheduled and approved pursuant to the 2020 budget. Improvements to Guilford Ave., S. Fourth St., Fairground Ave., Stonegate Ct., and S. Second St. were all postponed and will be completed in 2021.

Also postponed for the Storm Sewer Department, were the S. Main St. stream restoration/riparian buffer project, the Broad St. storm sewer system improvements project, the N. Fourth St. streambank restoration project, and the Mill Alley storm sewer system improvements. The N. Fourth St. streambank restoration project, and possibly the S. Main St. stream restoration/riparian buffer project, Broad St. storm sewer system improvements project and Mill Alley storm sewer system improvements project, will be completed in 2021, depending on available funding.

In 2020, the Electric Department made continuous progress toward the successful and on-time completion of the routine capital upgrades, the capital improvements proposed within the 2019 Bond, and the traffic signal upgrade project. Transmission and distribution systems nearing end of life and other customer support improvements were made in electric load carrying capability and system reliability throughout the Borough during the year. The department made preparations for upgrading distribution feeders in the southeast by beginning transmission pole replacements on Orchard Drive.

Electric Bond funds were used to complete the Commerce Street Power Transformer upgrade project. There were also north-south distribution feeder ties completed that will be used to pick up existing and new customers along its route.

The electric interconnection substation to the solar facility was substantially completed in 2020 with its tested completion in March 2021. After one (1) year of operation of this new solar facility PPA (2022), coupled with the output of the public/private Landfill Gas to Energy (EPA) Award winning project of 2013, it is estimated that about 25% of the entire Borough's traditional and mix of annual energy requirements will be renewable energy. Various other transmission system and substation upgrades were completed to accommodate the additional privately-owned large generation facility.

The new Distribution Operations Center to be built on the Borough Utilities Service Center property began taking shape after several setbacks in 2020. The facility is expected to be substantially completed in 2021. The new facility will house fleet vehicles, line dept. equipment, and materials extending their useful lives, and thereby sustainably increasing the day to day safety of personnel, operations at the utilities warehouse, but while also furthering opportunities to lower operating and capital expenditures in the long term.

Engine maintenance and controls upgrades at the Falling Spring Generating Station were begun and are to be substantially completed in 2021.

Finally, significant field work on the multi-million dollar traffic signal upgrade project began in 2020 with a high level of completion expected in 2021.

BOROUGH OF CHAMBERSBURG, PENNSYLVANIA
Management's Discussion and Analysis - Unaudited

In 2020, Borough Council opted to issue a \$ 9.99 million General Obligation bond, which includes the bond premium, in order to undertake a major upgrade to the water treatment plant, via the design and construction of a new clear well, in addition to any other system and/or treatment plant upgrades that are possible, after the clear well project is addressed.

In 2020, the Water Department continued to plan for future water needs with the construction of an additional 2.5 million gallon clear well at the water treatment plant. The second clear well will increase the borough’s storage capacity and allow maintenance to take place on the existing 2 million gallon clear well, which was constructed in 1969. The project was awarded to Hickes Associates, Inc. from Alexandria, PA on March 30, 2020. Construction on the new clear well began in 2020 and continues into 2021, at a cost of \$ 5 million. The project will be financed through a portion of the \$ 9.99 million bond sale in January 2020.

Additionally, Water Department personnel constructed two additional weirs in the watershed, with a total estimated cost of \$ 50,000. These weirs will be used to determine accurate watershed yield, which is necessary for the Borough’s Water Allocation Permit renewal process in 2029. The design phase for the rehabilitation of a third weir continued in 2020, with construction expected to take place in 2021 at a cost of approximately \$ 150,000 This rehabilitation project will also be financed through a portion of the \$ 9.99 million bond sale in January 2020.

In 2020, design work began on the wastewater treatment plant’s solids processing upgrades and continued on the East Conococheague Pump Station. This work was postponed due to the coronavirus being present in raw sewage, as well as availability of professional engineering personnel. 2021 will see a return to these design efforts.

Moreover, the Water and Sewer Departments continued to undertake main and service line repairs in advance of future street paving and reconstruction projects. In 2020, improvements were made within Fairground Avenue, S. Second Street, Hamilton Avenue, Harrison Avenue, W. King Street, and Heintzelman Avenue. Much of the water and sewer infrastructure throughout Chambersburg is 50 to 100 years old. These repairs and improvements will allow us to continue to efficiently serve our customers for decades to come.

Additional detail on the capital asset activity for the year ended December 31, 2020 is presented in the Notes to the Basic Financial Statements in Note 4.

Debt

A summary of outstanding debt at December 31, 2020 and 2019, respectively, is as follows:

	December 31, 2020	December 31, 2019
General Obligation Bonds/Notes		
Governmental activities	\$ 3,614,129	\$ 3,532,861
Business-type activities	<u>41,388,914</u>	<u>35,614,735</u>
Total outstanding debt	<u>\$ 45,003,043</u>	<u>\$ 39,147,596</u>

Additional detailed data for all debt of the Borough of Chambersburg is presented in the Notes to the Basic Financial Statements in Note 5.

Contacting the Borough’s Management

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with an overview of the Borough’s finances. If you have questions or need additional financial information, please contact the Director of Finance, Borough of Chambersburg, 100 South Second Street, Chambersburg, PA 17201.

BOROUGH OF CHAMBERSBURG
Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Position
December 31, 2020

Total fund balance - governmental funds \$ 11,648,202

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and therefore are not reported in the fund financial statement, but are reported in the governmental activities of the Statement of Net Position.

Cost of assets	42,228,390	
Accumulated depreciation	<u>(20,296,798)</u>	
		21,931,592

Taxes receivable will be collected in the future, but are not available soon enough to pay for the current period's expenditures, and therefore are not recorded in the fund financial statement. 723,084

Long-term liabilities are not due and payable in the current period and are not included in the fund balance sheet, but are included in the governmental activities of the Statement of Net Position. Long-term liabilities and related deferred inflows and outflows of resources consist of:

Bonds payable, net of premium	(1,177,460)	
Compensated absences	(809,604)	
Net pension liability	(5,774,270)	
Deferred outflows related to pension liability	905,583	
Deferred inflows related to pension liability	(1,220,736)	
OPEB liability	(1,977,944)	
Deferred outflows related to OPEB liability	123,648	
Deferred inflows related to OPEB liability	<u>(465,453)</u>	
		(10,396,236)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, motor equipment, engineering, administrative, and others, to individual funds. A portion of these assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in the governmental activities and are allocated based on the usage of those funds by the governmental funds. 5,270,328

Total net position - governmental activities \$ 29,176,970

BOROUGH OF CHAMBERSBURG
Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balance of
Governmental Funds to the Statement of Activities
Year Ended December 31, 2020

Net change in fund balances - total governmental funds: \$ 2,499,553

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense differs from capital outlays in the period.

	(1,561,809)	
Depreciation expense	459,824	
Capital outlays	459,824	(1,101,985)

In the statement of activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale from the sale increase other financing sources. Thus, the change in net position differs from the changes in the fund balance by the cost of the capital assets sold. (2,956)

Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned. (18,617)

The repayment of principal of long term obligations consumes the current financial resources of governmental funds. Also, governmental funds report prepaid bond issuance, bond premiums, and other similar items when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

	44,095	
Repayment of long-term obligations	1,058	
Amortization of bond premium	1,058	45,153

Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds. This is the difference between the amount incurred and the amount paid of:

	2,533	
Accrued interest	(283,639)	
OPEB liability and related deferred outflows and inflows	207,908	
Net pension liability and related deferred outflows and inflows	(75,519)	(148,717)
Compensated absences		

Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. 669,229

Change in net position - governmental activities **\$ 1,941,660**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The financial statements of the Borough of Chambersburg have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Reporting Entity

The GASB defines the criteria used to determine the composition of the reporting entity. It requires that the reporting entity include (a) the primary government, (b) organizations for which the primary government is financially accountable, (c) organizations that are fiscally dependent on the primary government and a financial benefit or burden exists, and (d) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and if it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for the governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation in some manner for the debt of the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the primary government.

Based upon the application of these criteria, the following component unit meets the criteria for blending:

The Municipal Authority of the Borough of Chambersburg (the "Authority") is governed by a Board appointed by Borough Council. The Authority exists to provide services entirely to benefit the Borough. The Authority had minimal financial activity during 2020. See Note 12 for additional information.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting

The Borough uses funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance/net position/(deficit), revenue, and expenditures/expenses. The various funds of the primary government are grouped into the categories of governmental, proprietary, and fiduciary.

Governmental Funds

Governmental Funds are those through which most governmental functions of the Borough are financed. The measurement focus is on the flow of expendable resources, rather than on net earnings determination.

The Borough reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Borough. This fund is used to account for all financial transactions except those required to be accounted for in another fund. This is a budgeted fund, and any unrestricted fund balances are considered as resources available for use.

Special Revenue Fund - Grant Programs - Grant Programs are used to account for the proceeds of specific revenue sources from grants used to finance specific activities as required by law or administrative regulation obtained by the Borough for the governmental activities.

Additionally, the Borough reports the following non-major governmental funds:

Special Revenue Funds – These funds are used to account for proceeds of specific revenue sources used to finance specific activities as required by law or administrative regulation. The Borough has four Special Revenue Funds, the Grant Program Fund above and the following:

Liquid Fuels Fund is used to account for state liquid fuels tax revenue used primarily for building, improving, and maintaining local roads and bridges.

Fire Tax Fund is used to account for real estate tax revenue used primarily for fire department support.

Recreation Tax Fund is used to account for real estate tax revenue used primarily for recreational purposes.

Citizen's Reward Fund is used to hold contributions from private citizens for the purpose of rewarding police informants for their assistance in solving crime.

Capital Reserve Fund – This fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting (Continued)

Proprietary Funds

Proprietary funds are used to account for activities similar to those found in the private sector, where the focus of proprietary funds is on the determination of net earnings and capital maintenance. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

The Borough reports the following major enterprise funds:

Electric Department – Provides electric power and related services to the Borough of Chambersburg and all customers, both residential and commercial, throughout the Borough.

Gas Department – Provides natural gas and related services to the Borough of Chambersburg in addition to its residential and commercial customers throughout the Borough and within its proximity.

Water Department – Provides water and related services, including laboratory analyses, to the Borough of Chambersburg, its residents, business establishments and various customers within the proximity of the Borough.

Sewer Department – Provides wastewater treatment services for the Borough of Chambersburg, its residents, commercial establishments and various customers located within the neighboring areas of Greene Township, Guilford Township, Hamilton Township and Letterkenny Township.

Swimming Pool Department – Provides aquatic recreational services for the residents of Chambersburg and the surrounding areas.

The Borough reports the following non-major enterprise funds:

Sanitation Department – Provides trash and garbage removal for the Borough of Chambersburg, its residents and commercial establishments throughout the Borough.

Parking, Traffic and Street Lights Department – Regulates and controls vehicle parking, traffic and streetlights throughout the Borough of Chambersburg.

Storm Sewer Department – Provides stormwater removal for the Borough of Chambersburg, its residents and commercial establishments throughout the Borough.

For proprietary funds, the Borough has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating Revenues – Operating revenues are defined as any charge for service or revenue related to the general operations of the respective fund. Operating revenues include activities that have the characteristics of exchange transactions, such as (1) utility billings; (2) penalties and late charges; and (3) other miscellaneous sales.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting (Continued)

Proprietary Funds (Continued)

Nonoperating Revenues - Nonoperating revenues include activities that have the characteristics of non-exchange transactions (in which the Borough receives value without directly giving equal value in return), such as contributions and grants, and other revenues that are defined as nonoperating revenues by GASB pronouncements, such as investment earnings. Tap fees are also considered nonoperating since they are charged based on future capacity needs of the system and are not based on an exchange-type transaction.

Internal service funds of a government (which traditionally provide services primarily to other funds of the government) are presented, in summary form, as part of the proprietary fund financial statements. Since the principal users of the internal services are a combination of the Borough's governmental and enterprise funds, financial statements of internal service funds are allocated based on the usage of those funds and included in the governmental and business-type column when presented at the government-wide level. The costs of these services are allocated to the appropriate functional activity.

The Borough's internal service funds consist of:

Stores Fund – The Stores Department is responsible for the purchase, storage, and disbursement of inventory which is used to support the construction and maintenance functions of the Borough utilities.

Motor Equipment Fund – This fund supports the activities of the Motor Equipment Department which manages a rolling stock of more than 120 vehicles.

Self-insurance Fund – This fund is used for the purpose of funding risk which the Borough does not transfer to commercial insurance carriers or insurance pools.

Engineering Fund – This fund supports the activities of the Engineering Department which is responsible for furnishing engineering, surveying, drafting, and utility location information to other departments. The department also designs and inspects public works projects.

Worker's Compensation – This fund underwrites the risks to the Borough resulting from job-related injury or illness to its employees.

Administrative Services Fund – Administrative Services is responsible for the complete financial reporting and utility meter reading, as well as the operation and maintenance of Borough Hall. This fund also includes the Finance Department.

The major fund concept does not apply to internal service funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting (Continued)

Fiduciary Fund Types

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds (Firemen's, Police, and Bargaining and Administrative Employees), investment trust funds, and private-purpose trust fund (Sister City).

Trust funds are used to account for assets held by the Borough under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Borough's own program.

With the adoption of a new accounting standard described in Note 14, several funds that were previously presented as fiduciary funds were evaluated. Based on the evaluation of the Borough's administrative involvement, the Citizen's Reward Fund is now presented as a special revenue fund and the Payroll Clearing Fund was merged into the General Fund. The Project Heat and Consumer Deposit Funds were merged into various enterprise funds.

The Borough's fiduciary funds consist of:

Police Pension Fund - This fund is used to account for the accumulation of resources for pension benefit payments to qualified public safety (police) employees.

Bargaining and Administrative Employees Pension Fund - This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees of the Borough other than police or fire department employees.

Firemen's Pension Fund - This fund is used to account for the accumulation of resources for pension benefit payments to qualified Fire Department employees.

Sister City Fund - Trust fund used to hold money that accumulates for the specific purpose of "sister city" activities. Our sister city is Gotemba, Japan.

Basis of Presentation

Government-wide Financial Statements – The statement of net position and the statement of activities display information about the Borough as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the Borough that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financials but differs from the manner in which governmental fund financials are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and statements for governmental funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Borough, and for each function or program of the Borough's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program and grants and contributions that are restricted to meeting the operation or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Borough, with certain limited exceptions. The comparison of direct expenses and program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Borough.

Fund Financial Statements – Fund financial statements report detailed information about the Borough. The focus of the governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The major fund concept does not apply to internal service funds which are considered proprietary funds and are presented with enterprise funds. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, deferred outflows of resources and deferred inflows of resources and a statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the Borough finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

The government-wide, proprietary, and fiduciary fund (except agency fund) financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets plus deferred outflows of resources less total liabilities and deferred inflows of resources) is used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net position. The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenue from federal, state, and other grants designated for payment of specific Borough expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as unearned revenues until earned. If time eligibility requirements are not met, a deferred inflow of resources would be recorded. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund, liquid fuels fund, capital reserve, grant program tax funds, and proprietary funds. All annual appropriations lapse at year end and must be reappropriated. Budgets are not revised during the year. Encumbrance accounting is utilized for internal management purposes, but not for financial reporting. The budget is prepared and approved at the departmental level. The departments presented in the Budgetary Comparison Schedules included as required supplementary information represent the legal level of budgetary control.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred inflows of resources, deferred outflows of resources and the disclosure of contingent assets and liabilities, if any, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash, Cash Equivalents, and Investments

Cash and cash equivalents include cash on hand, demand deposits, and in accordance with GASB pronouncements, each fund's equity in the Borough's investment pool since each fund can deposit or effectively withdraw cash at any time without prior written notice or penalty. Cash and cash equivalents on the Proprietary Funds' cash flow statements are in agreement with the amounts listed on the related statement of net position as "cash and equity in pooled cash and investments".

Investments are reported at fair value based on quoted values from established markets. Managed funds related to the retirement systems not listed on an established market are reported at estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities. Income, including the change in fair value, from investments held by the individual funds is recorded in the respective fund as it is earned. All other investments owned by the Borough are accounted for in pooled cash and temporary investment accounts. Income earned from this pooling of investments is allocated monthly to the respective funds based upon month end balances.

Inventories

Inventories held by the Electric, Gas, Water, Sewer, and Stores Funds, as well as fuel in the Motor Equipment Fund are priced using the moving weighted-average method. Inventories of parts held by the Motor Equipment Fund are stated at the lower of cost or market, cost being determined using the first-in/first-out (FIFO) method.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type column of the government-wide statement of net position and in the respective fund.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The Borough maintains a capitalization threshold of \$ 10,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest costs related to construction are expensed as incurred.

Infrastructure assets that have been acquired since 1980 have been recorded in accordance with GASB requirements. These consist mainly of highway improvements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued)

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities	Business-Type Activities
Land improvements	10-20 years	10-20 years
Buildings	40-50 years	40-50 years
Machinery and equipment	8-40 years	8-40 years
Utility plant in service	20-50 years	20-50 years
Infrastructure - railroads	25 years	N/A
Infrastructure - highways	25 years	N/A
Infrastructure - other	5-50 years	N/A

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Borough has several items that qualify for reporting in this category, including the deferred charge on bond refunding and various amounts related to the pension and OPEB liabilities. These amounts will be amortized in future periods. A deferred charge on bond refunding results from the difference in the carrying value of refunding debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Borough has several items that qualify for reporting in this category, including unavailable tax revenue that is reported as deferred inflows of resources in the governmental funds balance sheet and various amounts related to the pension and OPEB liabilities on the statements of net position. These amounts will be amortized in future periods.

Interfund Transactions

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Advances between funds which are not expected to be repaid are accounted for as transfers. Interfund balances and transactions are eliminated in the government-wide financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interfund Transactions (Continued)

Exchange transactions, if any, between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and are shown separately in proprietary funds.

Allowance for Uncollectible Accounts

The Borough provides credit to its customers in the normal course of business. Receivables are generally due thirty days after billed. The Borough provides an allowance for uncollectible accounts equal to the estimated losses based on historical collection experience that will be incurred in the collection of all receivables.

Loans Receivable

Loans receivable on the statement of net position (classified in "other receivables") represent loans made to low income residents under a revolving loan program funded by the Pennsylvania Department of Community and Economic Development (DCED) and the Federal HOME Program, as well as loan agreements with the Chambersburg Area Development Corporation for the renovation of the Heritage Center funded by DCED and Franklin County Visitor's Bureau for visitor center renovations.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business type activity columns in the statement of net position. This same treatment also applies to proprietary fund financial statements.

Bond premium and discounts, deferred charge on bond refunding, as well as prepaid bond insurance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. The deferred charge on bond refunding is reported as deferred outflows of resources and amortized over the shorter of the life of the refunded or refunding debt. Prepaid bond insurance costs are reported as an asset and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses (if resulting from a disparity in interest rates) or as debt service expenditures (if resulting from underwriter's fees). Issuance costs (including prepaid bond insurance), whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

In the government-wide financial statements and proprietary fund financial statements, net position is classified in the following categories:

Net Investment in Capital Assets: This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt and accounts payable and retainage payable that are attributable to the acquisition, construction or improvement of these assets reduce this category. *Net Investment in Capital Assets* consists of the following at December 31, 2020:

Government-Wide Activity

	Governmental Activities	Business-Type Activities
Capital assets	\$ 25,751,523	\$ 144,653,797
Bonds and notes payable	(3,636,354)	(43,002,926)
Deferred charge on bond refunding	-	23,623
Accounts and retainage payable related to capital assets	-	(933,800)
Unspent bond proceeds	-	13,043,875
Net investment in capital assets	<u>\$ 22,115,169</u>	<u>\$ 113,784,569</u>

Proprietary Funds

	Electric Fund	Gas Fund	Water Fund	Sewer Fund	Swimming Pool Fund	Sanitation Fund	Parking, Traffic, and Street Lights Fund	Storm Sewer Fund
Capital assets	\$ 39,231,409	\$ 13,986,848	\$ 17,297,755	\$ 46,493,748	\$ 7,739,344	\$ 2,251,068	\$ 3,514,033	\$ 3,900,152
Bonds and notes payable	(13,736,726)	-	(8,345,028)	(4,738,900)	(7,704,219)	(1,886,915)	-	-
Deferred charge on bond refunding	23,623	-	-	-	-	-	-	-
Accounts and retainage payable related to capital assets	(225,240)	(79,889)	(600,113)	(491)	(782)	-	(26,468)	-
Unspent bond proceeds	7,236,639	-	5,077,847	-	-	729,389	-	-
Net investment in capital assets	<u>\$ 32,529,705</u>	<u>\$ 13,906,959</u>	<u>\$ 13,430,461</u>	<u>\$ 41,754,357</u>	<u>\$ 34,343</u>	<u>\$ 1,093,542</u>	<u>\$ 3,487,565</u>	<u>\$ 3,900,152</u>

Internal Service Funds

	Stores Fund	Motor Equipment Fund	Engineering Fund	Administrative Services Fund
Capital assets	\$ 768	\$ 4,879,840	\$ 24,741	\$ 9,154,022
Bonds and notes payable	-	-	-	(9,050,032)
Accounts and retainage payable related to capital assets	-	-	-	(1,122)
Unspent bond proceeds	-	-	-	-
Net investment in capital assets	<u>\$ 768</u>	<u>\$ 4,879,840</u>	<u>\$ 24,741</u>	<u>\$ 102,868</u>

Restricted: This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. The following details governmental activities restricted net position:

Restricted for capital improvements	\$ 6,914,735
Restricted for grant expenses	203,148
Restricted for fire expenses	32,171
Restricted for recreation expenses	181,641
Restricted for police expenses	11,237
Restricted for highway improvements/projects	554,103
	<u>\$ 7,897,035</u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

Unrestricted: This category of net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted net position, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Borough's policy to use restricted resources first, then unrestricted resources as they are needed.

Deficit Net Position

The Administrative Services Fund, Engineering Fund, and Worker's Compensation Fund (internal service funds) have deficit net position balances of \$ 2,185,420, \$ 229,480, and \$ 110,038 respectively, at December 31, 2020.

Fund Balance – Governmental Funds

Governmental funds classify fund balance based on the relative strength of the spending constraints placed on the purpose for which resources can be used. The classifications are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact. This classification includes items such as prepaid amounts, inventories, and the long-term portion of loans and notes receivable. This also includes the corpus (or principal) of permanent funds.

Restricted: This classification includes amounts where the constraints placed on the use of resources are either (1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, change or mandate payment and includes a legally enforceable requirement on the use of these funds. The following details restricted fund balance:

Restricted for capital improvements	\$ 6,914,735
Restricted for grant expenses	203,148
Restricted for fire expenses	32,171
Restricted for recreation expenses	181,641
Restricted for police expenses	11,237
Restricted for highway improvements/projects	554,103
	<u>\$ 7,897,035</u>

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance – Governmental Funds (Continued)

Committed: This classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Borough's highest level of decision-making authority. This formal action is in the form of a resolution which is made by the Borough Council. Once an amount is committed, it cannot be used for any other purpose unless changed by the same type of formal action used to initially constrain the funds.

Assigned: This classification includes spendable amounts that are reported in governmental funds *other than in the General Fund*, that are neither restricted nor committed, and amounts in the General Fund that are intended to be used for a specific purpose. The intent of an assigned fund balance should be expressed by the Borough Council. The assignment of fund balance cannot result in a negative unassigned fund balance.

Unassigned: This classification represents the portion of a spendable fund balance that has not been categorized as restricted, committed, or assigned. The general fund is the only fund which would include a positive unassigned fund balance as all other fund types must categorize amounts within the other classifications. A negative unassigned fund balance may occur in any fund when there is an over expenditure of restricted or committed fund balance. In this case, any assigned fund balance (and unassigned fund balance in the general fund) would be eliminated prior to reporting a negative unassigned fund balance.

Minimum Fund Balance

The Borough's policy is to maintain a minimum of 5% of the total budgeted expenditures (including interfund transfers out) as the residual unassigned fund balance at year end. Three methods that can be employed in increasing fund balance if it were to fall below the minimum threshold are: 1) increase general fund revenues via tax or other revenue increase (charges for service), 2) decreasing general fund expenditures, or 3) increasing transfers from other Borough funds.

Order of Spending Policy

The Borough's policy for spending order when fund balance resources are available for a specific purpose in multiple classifications is to use restricted resources first and then apply unrestricted resources in the following order: unassigned, assigned, and committed.

Pension Trust Funds

The GASB requires a statement of plan net position and a statement of changes in plan net position. These are shown as part of the fiduciary statements. It also requires plan investments to be recorded at their fair value and establishes standards for the measurement, recognition, and display of pension expense and related liabilities, assets, and note disclosures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Compensation Plan

The Borough has established a deferred compensation plan under Internal Revenue Code Section 457 which covers all employees. All assets and income of the plan are held for the exclusive benefit of the plan's participants and their beneficiaries. In accordance with the provisions of the GASB, the assets and liabilities of the plan are not reported on the financial statements of the Borough.

Compensated Absences

Liability for compensated absences is accounted for in accordance with the provisions of the GASB, which require entities to accrue for employees' rights to receive compensation for vacation leave, or payments in lieu of accrued vacation or sick leave, as such benefits are earned, and payment becomes probable.

Under terms of the Borough's employment agreements, employees are granted vacation and sick leave in varying amounts. Vacation days not used by December 31 are lost unless otherwise approved or are retained if employed for at least 20 years by the Borough. Upon retirement from the Borough, employees with a certain number of years of continuous service are reimbursed as follows for their accumulated sick leave:

➤ **Bargaining, Non-Bargaining and Police** - As a wellness incentive, the Borough shall pay to an employee with at least five (5) years of continuous employment with the Borough, a post-separation lump sum payment of 1% of such employee's unused accumulated sick leave for each year that the employee has been employed with the Borough. (Example: An employee who has been employed for 15 years with the Borough would be entitled to 15% of the employee's unused accumulated sick leave, subject to the maximum payment amount set forth below). Such payment shall be based upon the employee's hourly rate at the time of separation. However, any employee who is terminated due to gross neglect, fraud, dishonesty, or willful failure to perform such employee's duties, shall forfeit all rights to such lump sum payment for unused sick leave (the wellness incentive). Additionally, employees shall only be eligible for the wellness incentive if, upon separation, the employee has accumulated at least five hundred (500) hours of sick leave. The maximum amount to be paid to any employee for such wellness incentive shall be ten thousand dollars (\$ 10,000).

➤ **Fire** - 15% to 27.5% of accumulated sick leave based on years of service.

Sick leave accumulated by bargaining and non-bargaining employees as of January 1, 2016, shall be converted to Catastrophic Sick Leave and credited to their Catastrophic Sick Leave bank. Employees may accumulate a maximum of 1,200 hours of Catastrophic Sick Leave (the "Catastrophic Sick Leave Cap"). At the end of each calendar year, employees with less than 1,200 hours of Catastrophic Sick Leave may roll any unused Regular Sick Leave into their Catastrophic Sick Leave bank, up to the Catastrophic Sick Leave Cap. Regular part-time employees shall be entitled to one-half of this benefit (600 hours catastrophic sick leave). Any accumulated sick leave under this benefit will be paid in accordance with the provisions noted above.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other Postemployment Benefits Other Than Pension

GASB establishes standards for the measurement, recognition, and display of other postemployment benefit expenditures and related liabilities, note disclosures, and if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. The Borough's other postemployment benefits are accounted for in accordance with these standards.

The Borough provides postemployment benefits by permitting retired employees the ability to participate in the employee health plan. Even though the retirees pay 102% of the Borough's blended premium rate, the Borough is still providing an implicit rate subsidy to its retirees. These benefits are financed on a pay-as-you-go basis. The Borough provides no other postemployment benefits for Borough employees.

Statement of Cash Flows - Proprietary Funds

Because the Borough accounts for all deposits and investments through a Central Treasury function, all investments are considered to be cash equivalents for purposes of the statement of cash flows.

Risks and Uncertainties

Recent economic and government reactions to the COVID-19 pandemic have resulted in temporary reductions or shutdowns of operations for some businesses and created many economic uncertainties. The long-term financial impact and duration of these impacts cannot be reasonably estimated at this time.

NOTE 2 CASH AND CASH EQUIVALENTS

The Borough is authorized to invest in the following under Borough code and Act 10 of 2016:

- U.S. Treasury Bills.
- Short-term obligations of the U.S. Government and federal agencies.
- Deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund to the extent that such accounts are so insured, and, for any amounts above the insured maximum, provided that approved collateral as provided by law therefore shall be pledged by the depository.
- Obligations of the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the respective governmental entity.
- Shares of an investment company restricted under the Investment Company Act of 1940.
- Obligations, participations or other instruments of any Federal agency, instrumentality, or United States government-sponsored enterprise if the debt obligations are rated at least "A" or its equivalent.
- Commercial paper issued by corporations or other business entities organized in accordance with federal or state law, with a maturity not to exceed 270 days.
- Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity.
- Negotiable certificates of deposit or other evidences of deposit, with a remaining maturity of three years or less.

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Deposits

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Borough’s deposits may not be returned to it. The Borough does not have a written policy for custodial credit risk. As of December 31, 2020, the Borough has a bank balance of \$ 11,109,486. Of this balance, \$ 500,000 is covered by FDIC insurance and the remaining balance of \$ 10,609,486 is collateralized by securities held by the pledging financial institution, not in the Borough’s name.

Pennsylvania Act 72 of 1971, as amended, is an act standardizing the procedures for pledges of assets to secure deposits of public funds with banking institutions pursuant to other laws; establishing a standard rule for the types, amounts and valuations of assets eligible to be used as collateral for deposits of public funds; permitting assets to be pledged against deposits on a pooled basis and authorizing the appointment of custodians to act as the pledger of the assets. Based on the standards outlined in Act 72, the various banks utilized by the Borough have pledged collateral on a pooled basis on behalf of the Borough and all other governmental depositors in the respective financial institutions.

Investments

As of December 31, 2020, the Borough’s investments were as follows:

Investment Type	Fair Value	Average Credit Quality Rating
PLGIT/PLGIT Prime	\$ 15,981,636	AAA _m
PLGIT/PLGIT Class	110,508	AAA _m
U.S. Treasury Notes	9,672,639	N/A
Wealthscape - Government Sponsored Enterprises	20,535,695	AA+
Wealthscape - Money Market Fund	7,239,550	AAA
Wealthscape - Negotiable CD's	9,184,730	Not Rated

Credit Risk – Investments

The Borough has no investment policy that would limit its investment choices to certain credit ratings.

Included in cash and cash equivalents in the financial statements are pooled investments in the Pennsylvania Local Government Investment Trust (PLGIT) - Class and PLGIT - Prime. PLGIT is an external investment pool. These funds operate similarly to mutual funds and consist of short-term money market instruments and seek to maintain a constant net asset value of \$ 1 per share.

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Investments (Continued)

Interest Rate Risk – Investments

The following investments are subject to interest rate risk:

	Total Fair Value	Less Than 1	Investment Maturities (in Years)		
			1-5	>5	
U.S. Treasury Notes	\$ 9,672,639	\$ 8,906,904	\$ 765,735	\$ -	
Wealthscape - Government Sponsored Enterprises	20,535,695	2,465,746	15,062,026	3,007,923	
Wealthscape - Negotiable CD's	9,184,730	6,419,532	2,765,198	-	

The Borough does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentrations of Credit Risk – Investments

At December 31, 2020, the following investments were in excess of 5% of the Borough's investments: Federal Farm Credit Banks (14.47%), Federal Home Loan Mortgage Corp (11.37%), and money market funds (11.54%).

Policies Followed at PLGIT

Regulatory Oversight

The operation of PLGIT is governed by an eleven-member Board of Trustees. The Trustees must be employees or elected officials of a local government or school district and are elected at the annual meeting of investors. The Trustees have exclusive and absolute control over the affairs of the Trust and its' assets, subject to rights of the Investors, as provided in the Declaration of Trust.

PLGIT is not registered with the Securities and Exchange Commission (SEC); however, PLGIT follows investment procedures similar to those followed by SEC registered money market funds.

Valuation of Investments

Portfolios are valued using the net asset value per share. The net asset value per share is computed by dividing the total value of the securities and other assets of the portfolio less liabilities, by the outstanding shares of the portfolio.

The Borough has no limitations or restrictions on withdrawals on accounts held at PLGIT.

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Investments (Continued)

Municipal Pension Plans

Investments held by the trustees of the pension plans are as follows:

	Total Fair Value	N/A	Investment Maturities (in Years)	
			1-5	>5
Corporate Bond Mutual Funds	\$ 15,552,300	\$ -	\$ 7,017,950	\$ 8,534,350
Open-End Mutual Funds	33,794,389	33,794,389	-	-
Total				

Credit Risk - Pension Plans

The Borough does not have a formal policy pertaining to credit risk. The corporate bond mutual funds credit rating is detailed below:

Rating	Percentage of Total
AAA	41.63%
AA	3.60%
A	21.59%
BBB	29.51%
BB	0.04%
B	0.00%
Below B	1.33%
Not rated	2.30%
	<u>100.00%</u>

Foreign Securities and Currencies Risk - Pension Plans

Foreign securities prices may decline or fluctuate because of economic or political actions of foreign governments or the possibility that foreign currency will fluctuate in value against the U. S. dollar. Included in the \$ 33,794,389 of Open-End Mutual Funds shown above are International Mutual Funds with a fair value of \$ 6,448,934. The International Mutual Funds may be subject to foreign securities and currencies risk.

Investments – Fair Value Measurements

Generally accepted accounting principles define fair value, describe a framework for measuring fair value, and require disclosure about fair value measurements. Recurring fair value measurements are those that GASB Statements require or permit in the statement of net position at the end of each reporting period. The established framework includes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the assets or liabilities fall within different levels of the hierarchy, the classification is based on the lowest level input that is significant to the fair value measurement of the asset or liability. Classification of assets and liabilities within the hierarchy considers the markets in which the assets and liabilities are traded and

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Investments (Continued)

Investments – Fair Value Measurements (Continued)

reliability and transparency of the assumptions used to determine fair value. The hierarchy requires the use of observable market data when available. The levels of the hierarchy and those investments included in each are as follows:

Level 1 – Represented by quoted prices available in an active market. Level 1 securities include highly liquid government bonds, treasury securities, mortgage products and exchange traded equities and mutual funds.

Level 2 – Represented by assets and liabilities similar to Level 1 where quoted prices are not available, but are observable, either directly or indirectly through corroboration with observable market data, such as quoted prices for similar securities and quoted prices in inactive markets and estimated using pricing models or discounted cash flows. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states, and political subdivisions and certain corporate, asset backed securities, swap agreements, and life insurance contracts.

Level 3 – Represented by financial instruments where there is limited activity or unobservable market prices and pricing models significant to determining the fair value measurement include the reporting entity's own assumptions about the market risk. Level 3 securities would include hedge funds, private equity securities, and those with internally developed values.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value on the statement of net position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Funds

The fair value of money market funds is estimated using quoted active markets for identical assets. Such investments are generally classified as Level 1 of the valuation hierarchy.

Negotiable Certificates of Deposit

The fair value of negotiable certificates of deposit are estimated using a discounted cash flow calculation that applies to interest rates currently being offered for deposits of similar remaining maturities to a schedule of aggregated expected maturities of such deposits. Such investments are generally classified within Level 2 of the valuation hierarchy.

U.S. Treasury Notes

The fair value of the U.S. Treasury Notes are estimated using quoted active markets for identical assets. Such investments are generally classified as Level 1 of the valuation hierarchy.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 2 CASH AND CASH EQUIVALENTS (CONTINUED)

Investments (Continued)

Investments – Fair Value Measurements (Continued)

Agency Bonds

Agency Bonds consisting of Federal Farm Credit Banks, Federal Home Loan Mortgage Corp, Federal Home Loan Bank, Federal Home Loan Mortgage Co., Federal National Mortgage Association and Fannie Mae are generally valued at the most recent price of the equivalent quotes yield for such securities, or those of comparable maturity, quality, and type. Such investments are generally classified within Level 2 of the valuation hierarchy.

Mutual Funds

Mutual funds listed on a national market or exchange are valued at the last sales price, or if there is no sale and the market is still considered active, at the mean of the last bid and ask prices on such exchange. The Borough's interests in mutual funds are categorized by type as equity, fixed income, or alternative investments. Such securities are classified within Level 1 of the valuation hierarchy.

The following table sets forth, by level within the fair value hierarchy, the financial assets that were accounted for at fair value on a recurring basis as of December 31, 2020:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Negotiable certificates of deposit	\$ 9,184,730	\$ -	\$ 9,184,730	\$ -
U.S. Treasury Notes	9,672,639	9,672,639	-	-

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 3 TAXES AND OTHER RECEIVABLES AND TAX ABATEMENTS

Property taxes are levied on March 1 for the tax year. Taxes are payable at a 2% discount if paid before May 1 and at a 10% penalty if paid after the due date of June 30. Outstanding real estate taxes are turned over to a delinquent tax collector on January 15 of each year. After proper notification is made to a property owner, a lien is filed on or about May 1 and must remain in effect for a period of two years before a tax sale may occur.

Taxes are recorded in the funds as revenue by the Borough when received from the tax collector, and accruals are recorded at year-end for taxes expected to be received within 60 days of December 31 in accordance with the modified accrual basis of accounting. The Borough has not established an allowance for uncollectible taxes since experience has demonstrated that substantially all taxes are ultimately collectible.

Receivables as of December 31, 2020 for the Borough's governmental activities, including the applicable allowances for uncollectible accounts, are as follows:

Real estate	\$	456,554
Earned income tax		773,498
Real estate transfer tax		70,583
Ambulance billings		648,555
Loans receivable		295,206
Grants receivable		725,250
Other		248,360
Allowance for uncollectible accounts		<u>(396,289)</u>
Receivables - full accrual basis		2,821,717
Allocation of internal service funds receivables not recorded in the governmental fund financial statements		<u>(24,124)</u>
Receivables - modified accrual basis	\$	<u>2,797,593</u>

Tax Abatements

Local Economic Revitalization Tax Assistance Act

The Borough enters into property tax abatement agreements with local businesses under the Local Economic Revitalization Tax Assistance Act. The Act authorizes specified local governments to provide tax exemption for new construction and improvements to industrial, commercial, and other business properties located within certain designated areas. Under the Act, local governments may grant property tax abatements of up to 100 percent of a business' property tax bill, based on assessed value, for the purpose of attracting or retaining businesses within their jurisdiction.

For the fiscal year ended December 31, 2020, total Borough property taxes of \$ 5,461 were abated under this program.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 4 CAPITAL ASSETS (CONTINUED)

See Note 10 for project commitments.

Depreciation expense for the year ended December 31, 2020 was charged to expense functions, including the internal service fund allocations, as follows:

	Governmental Activities	Business-Type Activities
General government	\$ 564,397	\$ -
Public safety	154,417	-
Public services	799,320	-
Parks and recreation	320,191	-
Electric	-	2,332,367
Gas	-	493,632
Water	-	589,881
Sewer	-	3,460,258
Sanitation	-	205,069
Parking, traffic and street lights	-	211,976
Storm Sewer	-	111,975
Pool Fund	-	332,111
	<u>\$ 1,838,325</u>	<u>\$ 7,737,269</u>

Internal Service Fund Allocation

The capital asset information shown above for governmental activities and business-type activities includes the allocation of capital assets, accumulated depreciation and current year depreciation expense of internal services funds. This allocation is based on the applicable usage of each internal service fund by the governmental activities (27%) and the business-type activities (73%). These allocations changed in 2020 compared to 2019, thus the beginning balances do not match the previous year financial statements due to reallocating the beginning balance of the internal service funds using the new allocations.

The General Fund and Internal Service Funds have been used in prior years to liquidate the liability for compensated absences in the Governmental Activities. In addition to the long-term liabilities listed above, the Borough has a net pension liability and a total OPEB liability. See Note 7 and Note 8 for additional details. The General Fund and the Internal Service Fund have been used in prior years to liquidate the net pension liability and total OPEB liability in the Governmental Activities.

Internal Service Fund Allocation

The liability for self-insured losses and compensated absences information shown above for governmental activities and business-type activities includes the allocation of self-insured losses and compensated absences of internal service funds. This allocation is based on the applicable usage of each internal service fund by the governmental activities (27%) and the business-type activities (73%). These allocations changed in 2020 compared to 2019, thus the beginning balances do not match the previous year financial statements due to reallocating the beginning balance of the internal service funds using the new allocations.

Bonds and Notes Payable

- (A) **General Obligation Bonds – Series of 2012** – On May 29, 2012, the Borough issued General Obligation Bonds in the principal amount of \$ 9,785,000 to be used for a partial refunding of the General Obligation Bonds, Series of 2007 and the costs of issuing the bonds. Annual installments of debt are to be paid from the Electric Funds, which vary in amounts from \$ 5,000 to \$ 1,500,000 and are due through July 1, 2022. Interest rates for the bonds are 2.00%. Interest is payable every January 1 and July 1.

NOTE 5 LONG-TERM LIABILITIES (CONTINUED)

- (B) **General Obligation Notes – Series of 2012** – On October 5, 2012, the Borough issued a General Obligation Note in the total of \$ 8,000,000 to be used for various projects. The funds will be utilized by the Sewer and Electric Funds. Principal is due monthly beginning on May 1, 2014. On August 31, 2020, interest rates for the note were modified to a fixed rate of 2.15% for the period through August 31, 2030. Following the fixed interest rate period, the note shall bear interest at the rate of 1 minus the corporate tax rate percentage times the U.S. Prime rate minus 0.25% with a tax-exempt floor rate of 1.98% and a tax-exempt ceiling rate of 4.85%. The maturity date of the principal is April 1, 2039.
- (C) **General Obligation Notes – Series of 2014** – On March 31, 2014, the Borough issued a General Obligation Note in the total amount of \$ 1,500,000 to be used for the purpose of financing the construction of a new green waste recycling facility. The funds will be utilized by the Sanitation Fund. Principal is due monthly beginning on November 1, 2015. On August 31, 2020, interest rates for the note were modified to a fixed rate of 2.15% for the period through August 31, 2030. Following the fixed interest rate period, the note shall bear interest at a rate of 1 minus the corporate tax rate percentage times the U.S. Prime Rate minus 0.25% with a tax-exempt floor rate of 1.98% and a tax-exempt ceiling rate of 4.85%. The maturity date of the principal is June 1, 2028, based on the loan being fully drawn.
- (D) **General Obligation Bonds – Series of 2016** – On September 19, 2016, the Borough issued a General Obligation Bond in the total of \$ 9,750,000 to be used for the purpose of financing the construction of a new swimming pool, various recreational improvements including upgrades to playground equipment and to pay the costs of issuing the Bonds. The funds will be utilized by the Capital Reserve Fund and Swimming Pool Fund. Principal is due monthly beginning on December 1, 2017. Fixed interest rates vary from 1.50% to 4.00%. Interest is payable every June 1 and December 1.
- (E) **General Obligation Notes – Series of 2017** – On February 17, 2017, the Borough issued a General Obligation Note in the total amount not to exceed \$ 9,750,000 to be used for the purpose of financing the design, construction and equipping of a municipal building annex. The funds will be utilized by the Administrative Services Fund, which is an Internal Service Fund; thus, the debt is allocated between the governmental activities and business-type activities. The Note is interest only for 18 months from the date of issuance, with principal and interest due monthly beginning on September 1, 2018. On August 31, 2020, interest rates for the note were modified to a fixed rate of 2.15% for the period through August 31, 2030. Following the fixed interest rate period, the interest rate will float at 1 minus the corporate tax rate percentage times the U.S. Prime Rate minus 0.25% with a tax-exempt floor rate of 1.98%, provided however, in the first year following the expiration of the fixed interest rate period the tax-exempt interest rate shall not exceed 3.20%; the following year the rate shall not exceed 4.25%, and the following and each subsequent year the rate shall not exceed the tax-exempt ceiling rate of 4.85%. The maturity date of the principal is September 1, 2043, based on the loan being fully drawn.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 5 LONG-TERM LIABILITIES (CONTINUED)

- (F) **General Obligation Bonds – Series of 2019** – On February 25, 2019, the Borough issued General Obligation Bonds in the amount of \$ 9,315,000 to be used for the purpose of financing various projects, including improvements to electric generation and supply facilities. The Bond requires semiannual principal and interest payments on October 1 and April 1 of each year beginning October 1, 2019 until paid in full in October 2039. The Bonds have a fixed interest rate of 5% through 2023. Thereafter the interest rate is 4%.
- (G) **General Obligation Bonds – Series of 2020** - On January 13, 2020, the Borough issued General Obligation Bonds, Series of 2020 in the amount of \$ 9,050,000 for the purpose of financing various capital projects, including the acquisition of real property for municipal purposes, the addition to the Water Treatment Plant, and various other capital improvement projects. The funds will be utilized by the Water Fund and Sanitation Fund. The Bond requires semiannual interest payments due on April 1, and October 1 of each year, and annual principal payments due on October 1 of each year, beginning October 1, 2020 until paid in full in October 2040. The bonds have a fixed interest rate of 4%.

The Borough’s bonds and notes contain provisions that in the event of default, all principal of notes and bonds outstanding may be declared or may become due and payable upon conditions provided in the agreements.

The general obligation bonds and general obligation notes are secured by the full faith, credit, and taxing power of the Borough.

The following is a schedule by years and in the aggregate of future minimum bond and note principal and interest payments required at December 31, 2020:

	BONDS

	1,829,971	903,375
	<u>\$ 6,389,229</u>	<u>\$ 6,389,229</u>

Transfers were made to help finance operations of the general or other funds. Transfers were also made during the current year to establish reserves for various future capital improvements. All transfers are considered routine.

NOTE 7 PENSION PLANS

Summary of Significant Accounting Policies

Plan Description

The Borough sponsors three single-employer defined benefit retirement plans which cover Bargaining and Administrative Employees, Police Officers and Paid Firemen. Plan provisions are established by municipal ordinance with the authority for municipal contributions required by Act 205 of the Commonwealth.

Plan Membership

At December 31, 2020, the participation in each plan is as follows:

	Bargaining and Administrative Employees	Police	Firemen
Participants:			
Retirees and beneficiaries	90	31	13
Vested former members	18	2	-
Active employees	<u>155</u>	<u>31</u>	<u>26</u>
Total	<u>263</u>	<u>64</u>	<u>39</u>

Benefits Provided

All regular full-time and certain part-time employees are eligible to participate in the plans. Benefits vest after twelve years of service for Bargaining and Administrative Employees, Paid Firemen and Police Officers. Bargaining and Administrative Employees are eligible for normal retirement after attaining age sixty-five. Eligibility for normal retirement under the Police Officers and Paid Firemen plans is attained at age fifty and completion of twenty-five years of service. Benefits under the Bargaining and Administrative Employees plan are based on 1.5% of average monthly pay times the number of years of service not to exceed thirty-five years. Average monthly pay is based on the three years of highest pay out of the last five years of employment. Benefits under the Police Officers and Paid Firemen pensions are based on 50% of average monthly pay during the last thirty-six months and the average monthly pay of the three highest years of compensation, respectively. In addition, police officers receive a service increment equal to \$ 100 per month for members who complete 26 or more years of benefit service. The Bargaining and Administrative Employees Plan and the Police Officers Plan also include a disability benefit and survivor benefits. If a police member retires on or after January 1, 2000, or a fireman retires on or after January 1, 2008, an annual cost-of-living adjustment is made to his pension equal to the percentage increase in the Consumer Price Index for the preceding calendar year, with a maximum total cost-of-living increase of 30%, and a maximum pension benefit of 75% of the salary used for computing the initial retirement benefit.

Financial Reports

There are no separate, audited GAAP basis pension plan reports for the defined benefit plans, as all necessary information is disclosed herein.

NOTE 7 PENSION PLANS (CONTINUED)

Summary of Significant Accounting Policies

Contributions

The Bargaining and Administrative Employees plan requires employee contributions of 6.0%. The Police Officers plan requires employee contributions of 4.25%. The Firemen plan requires employee contributions of 5%. The Borough is required to contribute the remaining amounts necessary to fund the plans, using the actuarial basis specified by the plan. The average contribution rate was 7.49 percent of annual payroll for the Bargaining and Administrative Employees, 26.05 percent of annual payroll for the Police Officers, and 14.07 percent of annual payroll for the Paid Firemen. The employer contributions for 2020 were \$ 818,752 for the Bargaining and Administrative Employees, \$ 615,582 for the Police Officers, and \$ 382,766 for the Paid Firemen.

Act 205 of the Commonwealth requires that annual contributions be based upon the calculation of the Minimum Municipal Obligation (MMO). The MMO calculation is based upon the biennial actuarial valuation also required by Act 205. Employees are not required to contribute under Act 205; such contributions are subject to collective bargaining. The Commonwealth allocates foreign fire and casualty premiums to assist in pension funding. Any financial requirement above the Commonwealth allocation must be funded by the Borough.

Administrative costs, including investment services, custodial trustee and actuarial services are charged to the appropriate plan and funded from investment earnings.

Investments

Method Used to Value Investments

Investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Fair value is determined by quoted market price.

Rate of Return

For the year ended December 31, 2020, the annual money weighted rate of return on pension plan investments, net of pension plan investment expense was 13.1 percent for the bargaining and administrative plan, 12.8 percent for the police officers plan, and 12.1 percent for the paid firemen plan. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 7 PENSION PLANS (CONTINUED)

Net Pension Liability

Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2020 the Borough reported a liability of \$ 11,140,603 in the Statement of Net Position. The net pension liability was measured as of December 31, 2020, and the total pension liability was determined by rolling forward liabilities from an actuarial valuation as of January 1, 2019. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end. For the year ended December 31, 2020, the Borough recognized pension expense of \$ 417,551 for the Bargaining and Administrative Employees, \$ 482,103 for the Police Officers, and \$ 351,564 for the Paid Firemen.

The following details the changes in total pension liability, the plan fiduciary net position, and the net pension liability, for the year ended December 31, 2020:

NOTE 7 PENSION PLANS (CONTINUED)

Actuarial Methods and Assumptions

The total pension liability in the January 1, 2019 actuarial valuation was determined using the following economic assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	5.00% (average, including inflation)
Investment rate of return	8.00% (including inflation)
Postretirement cost of living increases	3.00% (except general, which is N/A)

Valuation Date

Actuarially determined contribution rates are calculated as of January 1, two to four years prior to the end of the fiscal year in which the contributions are reported.

The actuarial assumptions used in the January 1, 2019 valuation were based on an actual experience study for the period January 1, 2017 through December 31, 2018.

Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. The pension plans' policy in regard to the allocation of invested assets is established and may be amended by the investment committee. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of December 31, 2020 are summarized in the table below and is applicable to all three plans:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	45.50%	5.50% - 7.50%
International equity	16.50%	4.50% - 6.50%
Fixed income	30.00%	1.00% - 3.00%
Real estate	3.00%	4.50% - 6.50%
Cash	5.00%	0.00% -1.00%

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 7 PENSION PLANS (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 8.00% for all three plans. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as an amortization of the unfunded liability.

Sensitivity of the Net Pension Liability to Changes to the Discount Rate

The following represents the net pension liability of the Borough, calculated using the discount rate of 8.00%, as well as what the Borough's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7 percent) and 1 percentage point higher (9 percent) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Bargaining and Administrative Employees	\$ 9,387,136	\$ 5,933,583	\$ 2,948,319
Police Plan	5,134,410	3,018,231	1,238,835
Firemen Plan	3,493,923	2,188,789	1,086,782

Net position - ending	<u>\$ 8,730,658</u>	<u>\$ 15,169,093</u>	<u>\$ 25,705,039</u>	<u>\$ 49,604,790</u>

Payables to the Pension Plan

As of December 31, 2020, the Borough had no payables to the pension plan.

Defined Contribution Plan

Effective January 1, 2016, the Borough amended the pension plan for non-uniform employees to add a defined contribution provision. To participate in the defined contribution plan, employees (or new hires who have completed their probationary period) on or after January 1, 2016, must elect to participate. Once a participant elects to participate in the defined contribution plan, the election is irrevocable, and the participant shall remain in the defined contribution plan until terminated. For participants who have vested, their defined benefit will be frozen as of January 1st of the year of election to participate in the defined contribution plan. Other than an initial contribution for those participants with less than 12 years of service, there are no required employee contributions to the defined contribution plan. An employee may make voluntary contributions. Employer contributions are made on an annual basis in the amount of \$ 3,400 for full-time defined contribution employees and \$ 1,700 for part-time defined contribution employees. Contributions to the defined contribution plan amounted to \$ 47,600 for 2020.

NOTE 8 POSTEMPLOYMENT HEALTHCARE PLAN

Plan Description

The Borough has a healthcare plan for retired employees, which is a single employer defined benefit healthcare plan administered by the Borough. The plan provides medical, prescription drug, and vision coverage for both the retiree and spouse. Retirees opting to participate are asked to pay a premium that is less than the Borough’s actual cost to provide health care coverage to retirees. The premium amount retirees pay is a blended rate for covering both active and retired Plan members and amounts to 102% of the Borough’s current blended premium rate. The fact that the blended rate that the retirees pay is less than the actual cost of covering retired members and their beneficiaries results in what is known as an “implicit rate subsidy” by the Borough, which gives rise to the other postemployment benefit (OPEB).

Because the Plan consists solely of the Borough’s decision to provide OPEB through the payment of the implied subsidy by extending medical benefits to retirees at the above-mentioned blended rate, no stand-alone financial report is available. The Plan is not included in the financial report of another entity. The coverage shall discontinue if the retiree obtains employment where medical coverage is provided, the retiree’s spouse insurance coverage covers the retiree, or the retiree qualifies for Medicare coverage.

Funding Policy

The Borough funds Plan liabilities on a “pay-as-you-go” basis and has not established an OPEB trust fund to accumulate assets to fund Plan obligations. The Borough has no statutory or contractual obligation to fund the Plan and only does so at the Borough’s discretion. The Borough funds the implicit rate subsidy through the payment of health insurance premiums. Plan members receiving benefits contributed \$ 897, or approximately 102% of the total premiums.

Plan Membership

Membership in the Borough’s plan consisted of the following at January 1, 2019, the date of the latest actuarial valuation:

	Bargaining and Administrative	Police	Firemen	Total
Active participants	162	33	27	222
Retired participants	-	1	-	1
Total	<u>162</u>	<u>34</u>	<u>27</u>	<u>223</u>

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

The Borough’s total OPEB liability was measured as of January 1, 2019 using an actuarial valuation based on census information as of January 1, 2019. The plan has no assets that are accumulated in a trust that meets the criteria established in GASB Statement No. 75. At December 31, 2020, the Borough reported a total OPEB liability of \$ 2,854,668.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 8 POSTEMPLOYMENT HEALTHCARE PLAN (CONTINUED)

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB (Continued)

The table below summarizes the OPEB liability and OPEB expense:

	Total OPEB/ Net OPEB Liability	OPEB Expense
Bargaining and administrative	\$ 969,396	\$ 288,461
Police	1,008,278	153,813
Firemen	876,994	127,100
	<u>\$ 2,854,668</u>	<u>\$ 569,374</u>

Changes in the Total OPEB Liability

	Total OPEB Liability			
	Bargaining and Administrative	Police	Firemen	Total
Beginning Balance	\$ 666,097	\$ 805,312	\$ 727,657	\$ 2,199,066
Changes for the year:				
Service cost	302,240	143,737	101,558	547,535
Interest	34,737	34,270	29,975	98,982
Differences between expected and actual experience	-	-	-	-
Changes in assumptions	(7,792)	38,942	28,366	59,516
Benefit payments	(25,886)	(13,983)	(10,562)	(50,431)
Net changes	<u>303,299</u>	<u>202,966</u>	<u>149,337</u>	<u>655,602</u>
Ending Balance	<u>\$ 969,396</u>	<u>\$ 1,008,278</u>	<u>\$ 876,994</u>	<u>\$ 2,854,668</u>

At December 31, 2020, the Borough report deferred outflows of resources and deferred inflows of resources related to OPEB:

	Bargaining and Administrative Employees		Police		Firemen		Total	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 524,255	\$ -	\$ 295,596	\$ -	\$ 68,698	\$ -	\$ 888,549
Changes in assumptions	24,220	31,770	56,614	26,234	40,396	19,665	121,230	77,669
Net difference between projected and actual investment earnings	-	-	-	-	-	-	-	-
Changes in proportions - governmental activities/ business-type activities	30,362	30,362					30,362	30,362
Benefit payments/contributions subsequent to the measurement date	53,836	-	4,650	-	14,527	-	73,013	-
	<u>\$ 108,418</u>	<u>\$ 586,387</u>	<u>\$ 61,264</u>	<u>\$ 321,830</u>	<u>\$ 54,923</u>	<u>\$ 88,363</u>	<u>\$ 224,605</u>	<u>\$ 996,580</u>

NOTE 8 POSTEMPLOYMENT HEALTHCARE PLAN (CONTINUED)

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB (Continued)

The amount of \$ 73,013 is reported as deferred outflows of resources related to OPEB resulting from Borough benefit payments/contributions subsequent to the measurement date but before the end of the Borough’s reporting period and will be recognized as a reduction in the total OPEB liability in the year ended December 31, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

	Bargaining and Administrative Employees	Police	Firemen	Total
Year ended June 30:				
2021	\$ (48,515)	\$ (24,195)	\$ (4,430)	\$ (77,140)
2022	(48,515)	(24,195)	(4,430)	(77,140)
2023	(48,515)	(24,195)	(4,430)	(77,140)
2024	(48,515)	(24,195)	(4,430)	(77,140)
2025	(48,515)	(24,195)	(4,430)	(77,140)
Thereafter	<u>(289,230)</u>	<u>(144,241)</u>	<u>(25,817)</u>	<u>(459,288)</u>
Total	<u>\$ (531,805)</u>	<u>\$ (265,216)</u>	<u>\$ (47,967)</u>	<u>\$ (844,988)</u>

Actuarial Methods and Assumptions

The total OPEB liability as of December 31, 2020, was determined by an actuarial valuation as of January 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial Cost Method	Entry age normal
Investment Rate of Return	3.26% - S&P Municipal Bond 20 Year High Grade Rate Index
Salary	An assumption for salary increases is used only for spreading contributions over future pay under the entry age normal cost method. For this purpose, annual salary increases are assumed to be 5.0%.
Mortality	IRS 2017 Static Combined Table for Small Plans
Percentage of Eligible Employees Electing Coverage in Plan	It is assumed that upon retirement, 25% elect coverage and that upon disability, 100% elect coverage. It is assumed that if coverage is deferred, 0% will elect coverage at a future date.
Health Care Cost Trend Rate	5.5% in 2019 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

NOTE 8 POSTEMPLOYMENT HEALTHCARE PLAN (CONTINUED)

Actuarial Methods and Assumptions (Continued)

Per Capita Claims Cost	The per capita cost for medical and prescription drugs is based on the expected portion of the group's overall cost attributed to individuals in the specified age and gender brackets. The resulting costs for the Police Officers and Firefighters range from \$ 4,133 to \$ 22,515 for males and from \$ 9,304 to \$ 20,986 for females; and for the Bargaining and Administrative employees range from \$ 2,479 to \$ 13,507 for males and from \$ 5,581 to \$ 12,589 for females.
------------------------	--

Discount Rate

A discount rate of 3.26%, which represents the S&P Municipal Bond 20 Year High Grade Rate Index at January 1, 2020, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liabilities of the Borough, as well as what the Borough's OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate.

	1% Decrease	Current	1% Increase
	2.26%	Discount Rate	4.26%
		3.26%	
Bargaining and administrative	\$ 916,016	\$ 969,396	\$ 1,003,479
Police	1,093,139	1,008,278	926,187
Fire	938,361	876,994	817,690
	<u>\$ 2,947,516</u>	<u>\$ 2,854,668</u>	<u>\$ 2,747,356</u>

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rate

The following presents the total OPEB liabilities of the Borough, as well as what the Borough's OPEB liabilities would be if it were calculated using the healthcare cost trend rate that is one percentage point lower or one percentage point higher than the current healthcare cost trend rate:

	1% Decrease	Healthcare	1% Increase
		Cost Trend	
Bargaining and administrative	\$ 814,181	\$ 969,396	\$ 1,148,984
Police	838,491	1,008,278	1,214,145
Firemen	757,132	876,994	1,018,791
	<u>\$ 2,409,804</u>	<u>\$ 2,854,668</u>	<u>\$ 3,381,920</u>

Payables to the OPEB Plan

As of December 31, 2020, the Borough had no amounts payable to the OPEB plan.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 9 RISK MANAGEMENT

The Borough is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Borough has established a Self-Insurance Fund and a Workmen's Compensation Fund (internal service funds), respectively, to account for and finance its uninsured risks of loss. The Self-Insurance Fund services all general liability, medical, directors' and officers' liability, and unemployment compensation claims for risk of loss. The Workmen's Compensation Fund provides coverage up to a maximum of \$ 500,000 for each worker's compensation claim. The Borough has purchased workmen's compensation insurance for claims in excess of coverage provided by the Fund, and also has purchased vehicle insurance and employee bonding coverage. Settlements have not exceeded insurance coverage for each of the past three years.

The general fund, all enterprise funds, and all internal service funds (except the Insurance Funds) participate in the program and make payments to the Self-Insurance and Workmen's Compensation Funds (Insurance Funds) based on estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses.

Insurance Fund liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities are computed under actuarial formulas and include an amount for claims that have been incurred but not reported.

Changes in the general and workers' compensation claims liability amounts for the prior two years were:

	Liability Beginning	Current Year Claims and Changes in Estimates	Claim Payments	Liability Ending
2020				
Self-insurance fund	\$ 107,805	\$ -	\$ (8,286)	\$ 99,519
Workers' compensation fund	362,530	164,122	(186,999)	339,653
2019				
Self-insurance fund	\$ 132,687	\$ -	\$ (24,882)	\$ 107,805
Workers' compensation fund	319,088	428,491	(385,049)	362,530

The Borough is part of the Pennsylvania Municipal Health Insurance Cooperative (PMHIC). This trust consists of a group of municipalities that have pooled their interests together in order to establish a self-funded medical insurance plan in order to better control insurance rates. The Borough pays a premium to PMHIC that consists of a portion for actual claim expenses, administrative costs, reinsurance costs and a reserve account. At year end, the actual claims of the Borough are reviewed, and the reserve account is used to fund any excess claims for the Borough over premiums paid during the year. If any funds remain in the reserve account, 15% of the total reserve balance could possibly be used to fund claim overages for the trust. A reinsurance policy is used to pay any additional excess claims. Therefore, the expense recognized by the Borough is limited to the premiums paid during the year. Any potential refund of the reserve account is calculated and received by the Borough several months after year end. Total payments by the Borough to PMHIC during the year were \$ 5,047,405. During 2020, the Borough received \$ 265,899 from PMHIC as a refund for prior premiums paid.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 10 COMMITMENTS

The Borough has the following projects open at December 31, 2020:

Project Description	Total estimated costs							Costs paid as of 12/31/2020	Costs to complete

NOTE 11 POLLUTION REMEDIATION ACTIVITIES

During the planning phase of expansion at the Borough's Utility Service Center, contaminated soils were revealed at the site. Upon discovery, the Borough initiated the assessment of necessary remediation efforts to remove the most significant and accessible structures and materials causing the contamination. As of December 31, 2020, future obligations related to the pollution remediation cannot be reasonably estimated.

NOTE 12 CONDUIT DEBT OBLIGATIONS

From time to time, the Municipal Authority of the Borough of Chambersburg has issued Revenue Notes to provide financial assistance to local not-for-profit organizations. Banks agree to loan the funds (via purchasing the Revenue Notes) to the entities, and the Municipal Authority assigns all rights, title, and interest in, and all sums payable by the entities to the banks. The notes are fully secured by the properties financed and are payable solely from resources of the entities that ultimately receive the financing. The Municipal Authority is not obligated in any manner for repayment of the debt. Consequently, this debt and the corresponding mortgages receivable are not reflected in these financial statements.

As of December 31, 2020 outstanding note balances under conduit debt arrangements were as follows:

Wilson College	\$ 34,890,000
The Shook Home	4,217,816
Children's Aid Society	356,926
Coyle Free Library	3,700,000

NOTE 13 CONTINGENCIES

The Borough is subject to real estate tax assessment appeals on an ongoing basis. If tax appeals are successful, the result is a loss of tax revenue to the Borough. It is anticipated that any material loss of tax revenue on individual tax appeals will be offset with additional revenues from other properties or other sources of revenue and would not create a financial hardship to the Borough.

The Borough is involved with various lawsuits in the normal course of operations. In most cases, management cannot predict the outcome of the lawsuits or estimate the amount of any loss that may result. Management believes that losses resulting from these matters, if any, would be substantially covered under the Borough's professional liability insurance policy and would not have a material effect on the financial position of the Borough.

BOROUGH OF CHAMBERSBURG
Notes to Financial Statements

NOTE 14 RESTATEMENT

During the year ended December 31, 2020, the Borough adopted *GASB Statement No. 84 Fiduciary Activities*, which required the District to change the presentation of fiduciary funds in the financial statements. In addition, a restatement was necessary to correct the balance in accrued interest receivable which was overstated at December 31, 2019.

Notes

This schedule will be expanded to show multi-year trends as additional information becomes available in the future.

Assumption changes:

In 2015, for the Police and Firemen's plan, the inflation rate was lowered from 4% to 3% to more closely estimate the future inflation rate.

In 2017, mortality rates were modified from the RP 2000 Table for males and females to the IRS 2017 Static Combined Table for Small Plans. Incorporated into the table are rates for annuitants projected 7 years and rates for non-annuitants projected 15 years using Scale AA to reflect morality improvements.

Changes in benefit terms:

Effective January 1, 2016, employees have the option to elect to participate under the defined contribution provisions of the plan.

Contributions as a percentage of covered payroll	14.07%	16.20%	12.68%	15.44%	17.45%	18.96%	18.42%	N/A	14.83%	N/A

Notes

Valuation date:

Actuarially determined contributions rates are calculated as of January 1, two to four years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates including changes in actuarial assumptions:

Actuarial valuation date January 1, 2019
Actuarial cost method Entry age normal
Amortization method Level dollar closed
Amortization period Bargaining and administrative - 13 years
 Police - 10 years
 Firemen - 10 years

Asset valuation method The actuarial value of assets from the prior valuation report (reduced for benefits paid and increased for contributions) is projected forward at an artificial investment return of 7.00% (interest rate assumption minus 1%) with a corridor of 80% to 120% of market value.

Inflation 3.00%
Salary increases 5.00%
Investment rate of return 8.00%
Retirement age General - normal retirement age

 Police - Attainment of Age 53 and completion of 25 years of service
 Firemen - Attainment of Age 53 and completion of 25 years of service

Mortality Mortality rates were based on the IRS 2017 Static Combined Table for Small Plans. Incorporated into the table are rates for annuitants projected 7 years and rates for non-annuitants projected 15 years using Scale AA to reflect mortality improvements.

OTHER SUPPLEMENTARY INFORMATION

BOROUGH OF CHAMBERSBURG

Other Governmental Funds

Liquid Fuels Fund – This fund (special revenue fund) is used to account for the Borough’s share of Liquid Fuels funds disbursed by the Commonwealth of Pennsylvania. The funds are legally restricted to the construction and maintenance of Borough streets and bridges.

Fire Tax Fund – This fund (special revenue fund) is used to account for the fire tax collected by the Borough. The funds are legally restricted to pay for fire related services.

Recreation Tax Fund – This fund (special revenue fund) is used to account for real estate tax revenue used primarily for recreational purposes. The funds are legally restricted to pay for recreation related services.

Citizen’s Reward Fund – This fund (special revenue fund) is used to account for contributions from private citizens for the purpose of rewarding police informants for their assistance in solving crime. The funds are restricted to pay for the police related services.

Capital Reserve Fund – This fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds).

Market appreciation (depreciation) (*)	2,078	3,730	576	6,384

(*) Cash and equity in pooled cash and investments includes various investments held by the Borough. The market appreciation (depreciation) represents that unrealized gain (loss) on these investments.

BOROUGH OF CHAMBERSBURG

Internal Service Funds

Stores Fund – The Stores Department is responsible for the purchase, storage, and disbursal of inventory which is used to support the construction and maintenance functions of the Borough utilities.

Motor Equipment Fund – This fund supports the activities of the Motor Equipment Department which manages a rolling stock of more than 120 vehicles.

Self-Insurance Fund – This fund is used for the purpose of funding risk which the Borough does not transfer to commercial insurance carriers or insurance pools.

Engineering Fund – This fund supports the activities of the Engineering Department which is responsible for furnishing engineering, surveying, drafting, and utility location information to other departments. The department also designs and inspects public works projects.

Worker's Compensation – This fund underwrites the risks to the Borough resulting from job-related injury or illness to its employees.

Administrative Services Fund – Administrative Services is responsible for the complete financial and utility meter reading, as well as the operation and maintenance of Borough Hall. This fund also includes the Finance Department.

Schedule 16
Borough of Chambersburg, PA
Computation of Direct and Overlapping Debt
December 31, 2020

Jurisdiction	Total Debt Outstanding	Estimated Percentage Applicable (a)	Amount Applicable To Borough of Chbg
Direct			
Borough of Chambersburg (Governmental Activities)	\$ 3,636,354		\$ 3,636,354
Overlapping			
Chambersburg Area School District	139,335,000	28.4909%	39,697,749
County of Franklin	69,312,000	13.5088%	9,363,215
Total overlapping debt	208,647,000		49,060,964
Total	\$ 212,283,354		\$ 52,697,318

(a) The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the borough's boundaries and dividing it by each unit's total taxable value.

Souces: Borough of Chambersburg Comprehensive Annual Financial Report
Franklin County Fiscal Department
Chambersburg Area School District

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the borough. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the borough. This process recognizes that, when considering the borough's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

Schedule 17
Borough of Chambersburg, PA
Debt Capacity Information - Pledged-Revenue Coverage
Last Ten Years

Water Revenue Loan Payable (1)

Fiscal Year		Utility Service Charges	Less: Operating Expenses	Net Available Revenue	Debt Service		Coverage
					Principal	Interest	
2014	(2)	\$ 3,131,530	\$ 3,364,685	\$ (233,155)	\$ 2,463,360	\$ (3,618)	-0.09

BOROUGH OF CHAMBERSBURG
Notes to Schedule of Expenditures of Federal Awards
Year Ended December 31, 2020

NOTE 1 GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of the Federal awards program of the Borough of Chambersburg, Pennsylvania. The reporting entity is defined in Note 1 of the Borough's financial statements.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the Borough's financial statements.

Indirect Cost Rate

The Borough has elected not to use the 10% de minimis indirect cost rate for its federal programs.

NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS

Expenditures of Federal Awards are reported in the Borough's General Fund, Special Revenue Fund, and the Parking, Traffic and Street Lights Department Fund of the financial statements.

NOTE 4 FEDERAL AWARDS BY CFDA NUMBER

	CFDA No.	Expenditures	Percent
Community Development Block Grant	14.228	\$ 55,729	5.3%

		<u>\$ 1,050,782</u>	<u>100.0%</u>

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Mayor and Borough Council
Borough of Chambersburg
Chambersburg, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Chambersburg, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements, and have issued our report thereon dated June 28, 2021.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the Borough of Chambersburg's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Chambersburg's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough of Chambersburg's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as 2020-001 that we consider to be a material weakness.

To the Mayor and Borough Council
Borough of Chambersburg
Chambersburg, Pennsylvania

COMPLIANCE AND OTHER MATTERS

As part of obtaining reasonable assurance about whether the Borough of Chambersburg's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

BOROUGH OF CHAMBERSBURG'S RESPONSE TO FINDINGS

Borough of Chambersburg's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Borough of Chambersburg's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Chambersburg, Pennsylvania
June 28, 2021

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Mayor and Borough Council
Borough of Chambersburg
Chambersburg, Pennsylvania

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

We have audited the Borough of Chambersburg's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Borough of Chambersburg's major federal programs for the year ended December 31, 2020. The Borough of Chambersburg's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Borough of Chambersburg's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Borough of Chambersburg's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Borough of Chambersburg's compliance.

Opinion on Each Major Federal Program

In our opinion, the Borough of Chambersburg complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

To the Mayor and Borough Council
Borough of Chambersburg

REPORT INTERNAL CONTROL OVER COMPLIANCE

Management of the Borough of Chambersburg is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Borough of Chambersburg's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of Chambersburg's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Chambersburg, Pennsylvania
June 28, 2021

BOROUGH OF CHAMBERSBURG
Schedule of Findings and Questioned Costs
December 31, 2020

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued: Unmodified

Internal control over financial reporting:

- Material weakness identified: Yes No
- Significant deficiencies identified that are not considered to be material weakness(es)? Yes None Reported

Noncompliance material to financial statements noted? Yes No

Federal Awards

Internal control over major program:

- Material weakness identified? Yes No
- Significant deficiencies identified that are not considered to be a material weakness(es)? Yes None Reported

Type of auditor's report issued on compliance for the major program: Unmodified

- Any audit findings disclosed that are required to be reported in accordance with Section 2 CFR section 200.516? Yes No

Identification of the major program(s):

CFDA Number(s)	Name of Federal Program
21.019	Coronavirus Relief Fund

Dollar threshold used to distinguish between type A and type B programs \$ 750,000

Auditee qualified as low-risk auditee? Yes No

Section II - Financial Statement Findings

A. Material Weakness in Internal Control

Finding Reference: 2020-001 – Lack of Review or Reconciliation of Accounts

Criteria: Internal control processes should include procedures to ensure all internal accounts are properly reconciled, supported by appropriate documentation, and adjusted to reflect the correct balances for presentation in accordance with generally accepted accounting principles for external financial reporting.

Condition: There were multiple transactions not properly recorded in the general ledger system, including various receivable, payable and cash transactions. In addition, account reconciliations were not completed accurately for all accounts and therefore did not agree to the general ledger.

Cause: Due primarily to extended leave of key personnel, an adequate review was not performed on the account reconciliations and related supporting documentation to verify accuracy and correctness.

Effect: Without further analysis and resulting adjustments made subsequent to year-end, the financial statements would have been materially misstated.

Recommendation: All significant accounts should be reconciled on a regular basis with adjusting journal entries made as needed to properly adjust general ledger balances for presentation in external financial statements. In addition, we recommend that the Borough implement a process at year-end to review and reconcile balances on the trial balance to supporting documentation. Although there have been considerably less correcting entries over the past few years, implementing the appropriate review and reconciliation procedures will further ensure proper reporting.

*Views of Responsible
Officials and Planned
Corrective Actions:*

Overseen by the Staff Accountant, Accounting Staff will reconcile accounts monthly, and the Accounting Technician will make adjusting journal entries when necessary. To ensure accuracy of year-end balances, the Accounting Technician will reconcile general ledger account balances to adequate supporting documentation. Year-end journal entries will require approval by the Staff Accountant prior to the Accounting Technician posting to the general ledger. Technology improvements designed to make entering monthly general ledger activity more efficient should allow for additional time to review the activity prior to initiating the annual audit process.

B. Compliance Findings

There were no compliance findings related to the financial statement audit required to be reported.

BOROUGH OF CHAMBERSBURG
Schedule of Findings and Questioned Costs (Continued)
December 31, 2020

Section III - Federal Award Findings and Questioned Costs

A. Significant Deficiencies in Internal Control

None noted

B. Compliance Findings

There were no findings related to the major federal awards as required to be reported in accordance with the Uniform Guidance by 2 CFR Section 200.516.

Borough of Chambersburg

*A full service municipality in Franklin County
celebrating over 65 years of consumer owned natural gas service
over 120 years of community electric and a
regional wastewater, water, and municipal solid waste utility*

Summary Schedule of Prior Audit Findings December 31, 2020

Findings related to financial statements:

Finding 2019-001:

Lack of Review or Reconciliation of Accounts

Condition:

There were a number of transactions not properly recorded in the general ledger system. In addition, account reconciliations were not completed accurately for all accounts and therefore did not agree to the general ledger.

Status:

The finding remains as certain reconciliations were not properly agreed to the general ledger balance at year-end requiring audit adjustments to correct balances in order to prevent the financial statements from being materially misstated.

Findings related to federal awards:

None noted
