Replacement Tree Procedures:

Existing tree stumps must be ground to at least 12" below surface level before planting in the same spot.

Where necessary, cuts will be made in the sidewalk to create tree wells of at least 3.5' x 3.5'. Contact Borough Engineer (717-251-2415) to coordinate.

Trees must be planted at least 10' from utility poles and at least 6' from water, sewer and gas services.

No tree can be planted closer than 35' to an intersection or alley, unless approved by the Brough Engineer.

Trees need to be adequately spaced when planting.

Tree maintenance is the responsibility of the property owner.

Refer to the Establish and Care for Your Tree section of the Approved Street Tree Planting List for the Borough of Chambersburg.
