# Borough of Chambersburg

Celebrating 50 years of consumer owned gas service and over 100 years of consumer owned electric service

#### Letter of Transmittal for 2010 Comprehensive Annual Financial Report

June 17, 2011

To the Honorable Mayor, Town Council and the Citizens of the Borough of Chambersburg, Pennsylvania.

The Comprehensive Annual Financial Report of the Borough of Chambersburg for the year ended December 31, 2010, is hereby submitted for your review. This report represents the commitment of the Borough of Chambersburg to adhere to nationally recognized standards of excellence in financial reporting.

Borough of Chambersburg staff prepared all statements, schedules, and other presentations in this report. Management is responsible for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures. We believe that the data presented in this report is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the Borough. Further, we believe that all disclosures necessary to enable the reader to gain an understanding of the Borough of Chambersburg's activities have been included.

The Comprehensive Annual Financial Report (CAFR) incorporates financial reporting standards established by Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Statement No. 34 was developed to make annual financial reports of governments more comprehensive and easier to understand and use. All required elements of Statement No. 34, including retroactive restatement of general infrastructure assets are now required in this report and are included in this report as they were in the previous years' reports.

Please review the Management's Discussion and Analysis (MD&A) which is also located in the Financial Section of the CAFR. The MD&A became a requirement of the financial statements with the institution of the Governmental Accounting Standards Board (GASB) Statement 34 reporting model. The adoption of GASB 34 was required by the Borough of Chambersburg for the year ended 12/31/2003.

The MD&A is management's analysis of the municipality's financial position based on currently known facts as of the date of the auditor's report. It is required to precede the financial statements and provide the following analysis:

- Management's analysis of the organization's financial position and results of operations
- Comparison of current year assets, liabilities, revenues and expenses to the prior year
- Explanation of significant changes in fund based financial results and budgetary information
- Description of capital asset and long term debt activity during the year
- Description of currently known facts, decisions or circumstances expected to have a significant effect on the future overall financial activities of the municipality

#### **General Information**

The Borough of Chambersburg, one of the earliest permanent settlements west of the Susquehanna River, was founded in 1764 by Benjamin Chambers on land granted to him by the Penn Proprietors. Chambersburg was incorporated as a Borough by an Act of the State Legislators on March 21, 1803. It is located on Interstate 81 in the south-central region of Pennsylvania and is the county seat of Franklin County. The Borough covers an area of 6.58 square miles and lies approximately 50 miles southwest of Harrisburg, 25 miles west of Gettysburg, and 22 miles north of Hagerstown, Maryland. It is the historic and commercial center of the region characterized by varied small and medium industrial enterprises, a rich agricultural area, and residential growth.

According to the U.S. Bureau of the Census, the Borough's population increased from 17,862 to 20,268 between 2000 and 2010, an increase of 13.5 percent during the period.

#### **Municipal Services and Facilities**

The Borough is a total service community providing a broad range of services for the citizens of Chambersburg, including the following general government functions: police and fire protection, emergency medical services, street construction and maintenance, storm water management, parks and recreation facilities and code enforcement.

The Borough is unique in Pennsylvania in that it owns and operates electric, gas, water, sewer, sanitation and parking facilities. The Borough is the largest and only electricity producing consumerowned municipal electric system in the Commonwealth of Pennsylvania. The Chambersburg Electric Department is in its eleventh year of its second century of service to the citizens of Chambersburg, and the Borough's Gas Department has been providing municipal gas for over 50 years. The citizens of Chambersburg voted on August 20, 1875 in favor of a bond issue to construct a water system. The sewer service was initiated on August 1, 1912.

#### **Governmental Organization**

The Act of Incorporation in 1803 provided for "the Burgess and Town Council of the Borough of Chambersburg as the one body politic and corporate in law". The title Burgess was changed to Mayor in 1961. The Mayor is elected at large every four years. His duties are outlined in the Borough Code and include the oversight of the Police Department. The Mayor votes on actions being considered by Town Council only to break tie votes.

The legislative and executive authority of the Borough is vested in a ten-member Council. Two councilmen are elected from each of the five wards, one councilman from each ward being elected at each biennial election. Council members are elected to overlapping four-year terms. The council enacts legislation to provide for Borough services, adopts budgets, levies taxes, borrows money, licenses and regulates businesses and trades and performs such other duties consistent with the Borough Code. The presiding officer of the Council is the President of Council who is a member of Council and elected to that position by a vote of Council members.

By an ordinance approved in December of 1975, Town Council created the office of the Borough Manager. The Borough Manager is the chief administrative officer of the Borough and is responsible to the Town Council as a whole for the proper and efficient administration of the affairs of the Borough. The manager is appointed for an indefinite term and serves at the pleasure of Council.

The Director of Finance, who is appointed by the Borough Manager, is the chief financial officer of the Borough. The Director of Finance exercises the powers otherwise granted to the Borough Treasurer position under the laws of the Commonwealth of Pennsylvania. As such, the Director of Finance is charged with the responsibility of receiving, disbursing, and maintaining custody of all funds of the Borough and serves as Pension Funds Chief Administrative Officer. The position also includes the duties of serving as department head of the Administrative Services Fund, an internal service fund which is

responsible for computer services, cashiering, accounting and the Parking Department as well as the custodial services and maintenance of City Hall. The Director of Finance advises the Borough Manager and Town Council concerning financial matters and assists the Borough Manager in the preparation of the annual budget.

#### **Departmental Highlight - Chambersburg Water Department**

Each year we spotlight one of the Borough's many departments by reviewing the history, activities and accomplishments of the selected department. Last year, we focused on the Chambersburg Ambulance Service. This year's report highlights our Water Department. The history of the Water Department has been chronicled by our very own Mr. J. Gordon Cree who served as Manager of Utilities for the Borough from 1948 to 1972.

A good source of water has always been essential to the well being and survival of communities throughout civilization. It is no wonder that the original Colonel Benjamin Chambers fort was built over the Falling Spring to provide a good source of water for the use of the inhabitants as well for fire protection. The Chambersburg Water Company was organized around 1818. A waterwheel was employed to pump water from the Falling Spring to a reservoir sited on the current Chambersburg Hospital land. Water then flowed to customers through hollowed pine logs which were joined "end to end". It is estimated that the cost of this undertaking was approximately \$40,000.

The water system was improved and expanded in 1871 with the development of the Borough's first utility enterprise, the Birkinbine Reservoir which consisted of a 300,000 brick reservoir near the intersection of Reservoir and Franklin Streets (Reservoir Hill). A steam engine powered pumping station along the Conocheague Creek lifted the water from the creek into the reservoir. Over six miles of cast iron pipe was installed to transport the water to the reservoir and then distribute it to the North Main Street area as well as to the center of town. From these mains, smaller pipes distributed water to the populace. The water was taken from the creek with little regard to the fact that raw sewerage was being piped into the creek about a mile above the pumping station.

In January of 1891, the C. B. Gish flour mill at what is now called "Siloam" was purchased. It consisted of a mill dam and the impounding area above it. An additional land purchase gave rise to the possibility of a 2 million gallon reservoir. Initially, it was expected that the mill's wheel would force water to the new reservoir known as Horst Reservoir. The experiment was less than successful and steam driven pumps where implemented. In 1905, a Worthington steam driven pump was successfully installed with the plant producing about 1.5 million gallons per day in 1907. Unfortunately, the water from the Conococheague Creek flowed through miles of pastures and fields making it a less than an agreeable source of water.

In 1909, the Burgess, Mr. A.W. Zacharias, prompted the locals to work on the "water situation of the Borough". By 1910, Town Council decided to look to the east of the Borough and develop the town's main water source, the Conococheague creek, in the valley above Caledonia Park east of town in the South Mountain. This system would eventually provide the Borough with pure water from a gravity fed water system eliminating the costs of pumping water. To obtain the State Department of Health's approval, the Borough agreed to install the first sanitary sewer system along with a sewerage treatment plant. The Borough issued a \$150,000 bond package in 1910 to construct the stream intake facilities, a 2 million gallon reservoir east of town and a fourteen inch pipeline into town terminating at South Sixth Street.

The first water from the new source arrived on July 3, 1911 and was of sufficient purity that no chemical treatment was necessary for many years. Water hardness was measured at four units per million, as contrasted with sixteen units per million from the same stream collected at the Siloam Dam. The elevation at the center of Chambersburg was about 975 feet below that of the intake dam providing water pressure of fifty to eighty pounds per square inch throughout the town. In later years, chlorine was utilized to treat the water for microorganisms and fluoride compounds were added to help protect the residents' teeth. In the early 1930's, a reinforced concrete dam was constructed across the Birch Run creating a storage capacity of 3.9 million gallons.

In the late 1960's, the Borough decided to enlarge its water storage reserve and improve other facilities. A new dam called the Long Pine Run Dam was constructed upstream from the Birch Run Dam creating a lake with a surface of 150 acres and storing 1.8 billion gallons of water. Additionally, a new water treatment plant with a daily flow capacity of six million gallons was constructed. Also, a three million gallon "ground based steel water storage tank" was built at the former Birkenbine open reservoir site on Reservoir Hill. In 1967 and 1969, bond issues were floated for a total of \$8,325,000 to cover the \$7,41,850 cost of these projects. Up until that time, this was the largest utility project ever initiated by the Borough of Chambersburg. Since that time the Borough has initiated many projects that have enhanced the quality of service to the customers of the Borough's water department.

Currently, the Borough water department serves approximately 870 commercial, 7600 residential and 19 industrial customers. Additionally the Borough provides water to one municipal customer. In 2011, the Borough's water department will operate with an operating budget of approximately \$3.8 million which includes transfers (\$1.3 million) to the general and capital reserve funds. While providing high quality water to its diverse customer base, the Borough's water department has consistently kept its rates (cost per unit) at one of lowest levels in the region. No rate increase is anticipated for 2011.

#### **Economic Environment - Historical**

Chambersburg's history as a strong commercial center is rooted in its strategic location. It was a crossroads of commerce almost from its founding. Situated in the center of the Cumberland Valley, it became the county seat of the newly created Franklin County in 1784. Scotch-Irish and German settlers predominated the early migration into the county. The Scotch-Irish began as farmers from the sheer necessity of survival, but many drifted into political and military occupations. The methodical and industrious Germans quickly and successfully assumed the development of agriculture in the community.

By congressional resolution in 1788, Chambersburg was placed on the post route between Philadelphia and Pittsburgh. The country's post Revolutionary War expansion to the new western frontiers was beneficial to Chambersburg. At first, pack trains, and then the stagecoach and Conestoga wagons were common vehicles of traffic through the town. The demands for the movement of goods manufactured in the East to the West and the products from the frontier were beneficial to Chambersburg. It was reported of every tenth house being used as a hostelry, with the yards being filled nightly to overflowing with wagons.

As wagon traffic increased in volume, the demand for better roads arose. Many of the state's earliest roads were undertaken by the private sector. Acceding to public demands, the State Legislature made large appropriations available for highway construction between 1814 and 1821. \$275,000 was available for improvements of sections of the Carlisle to Chambersburg and the Chambersburg to Bedford sections of the turnpikes. In 1877, thirty-nine of the eighty-eight miles of turnpike in Franklin County were on roads converging on Chambersburg. By 1944, there were 228 miles of main highways and 338 miles of improved secondary roads in Franklin County.

In 1837, the Cumberland Valley Railroad was extended from Harrisburg to Chambersburg where it joined the turnpike to Pittsburgh. The railroad extended down the Cumberland Valley and crossed the Potomac River in 1870 and eventually was extended to Winchester, Virginia in 1889.

The Pennsylvania Turnpike was completed through the County in 1940. The county had two interchanges located within the general area of Chambersburg. The development of the largest U. S. Army Ordnance distribution facility of its kind in 1942 illustrated the possibilities of the area developing as a center of distribution. Chambersburg's location in relation to seaports, metropolitan markets and industrial areas was evident from the beginning.

#### **Economic Environment - Today**

The construction of the interstate highway system in the 1960's resulted in Interstate 81 being on the eastern edge of the Borough. Chambersburg has become a magnet for distribution warehouses to facilitate the flow of goods on the East Coast. Authorities are examining their options on how Interstate 81 can be improved to handle the abundant truck traffic that transverses the highway daily. This access

to major highways and railroads coupled with Chambersburg's location has created opportunities for our continued prosperity. Other factors that make the Borough a good place to do business are competitively low utility rates, good municipal services, ample power supplies, affordable housing, a skilled and diversified workforce, a low crime rate and a progressive school district.

The 10 largest employers operating in the Borough in 2010 were:

| DDIMADY BUSINESS             | AVERAGE NUMBER OF EMPLOYEES  |
|------------------------------|--|
| FRIMARI BUSINESS             | OF EMPLOTEES   |
| Health Care                  | 2,874  |
| Public Education             | 1,050  |
| Government                   | 926  |
| Retirement Community         | 553  |
| Food Packaging               | 395  |
| Retailing                    | 308  |
| Power Transmission Equipment | 281  |
| Financial Services           | 278  |
| Distribution Warehousing     | 250  |
| Municipal Government         | 201  |
|                              | Public Education Government Retirement Community Food Packaging Retailing Power Transmission Equipment Financial Services Distribution Warehousing |

The Borough of Chambersburg is considered the employment center for the region. Over 20,000 people work in the Borough on a daily basis.

However, within just five miles of Chambersburg there are a number of significant employers that add to the vitality of the community. Those employers are as follows:

| EMPLOYER                       |   | AVERAGE NUMBER OF EMPLOYEES |
|--------------------------------|---|-----------------------------|
| Letterkenny Army Depot/Tenants | Repair Military Vehicles and Missiles/Mis | sc. 3,715                   |
| Target Distribution Center     | Distribution Warehousing                  | 600                         |
| Martins Famous Pastry Shop     | Potato Bread and Rolls                    | 485                         |
| Ingram Book Group Inc.         | Book Distribution                         | 440                         |
| WalMart                        | Retailing                                 | 425                         |
| Valley Quarries                | Stone and Asphalt Products                | 260                         |

#### **FINANCIAL INFORMATION**

Borough management has taken the initiative to prepare a Comprehensive Annual Financial Report (CAFR) starting with fiscal year ending 12/31/04 and thereafter. The CAFR provides readers of our financial statements with much additional information relating to the financial condition of the Borough of Chambersburg. Among these include information regarding our local taxpayers, employers and a plethora of similar information encompassing the past ten years. We are honored and pleased that our efforts have resulted in our receiving the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for the four previous reports. We are again cognizant of the implications of our continuing to strive for such a prestigious award and will continue to pursue it. With this award, we have been designated as having attained the "highest standards in governmental accounting and financial reporting".

#### Accounting/Budgetary Control System

<u>Internal Controls.</u> To provide reasonable assurance of the reliability of the information underlying the Borough of Chambersburg's financial statements, management of the Borough is responsible for the establishment and maintenance of an internal control system that provides reasonable, but not absolute, assurance that:

1. The Borough's assets are protected against loss and unauthorized use or disposition: and

2. Adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America

The concept of reasonable assurance recognizes that:

- 1. The cost of control should not exceed the benefits likely to be derived; and
- 2. The valuation of costs and benefits requires estimates and judgments by management

As a recipient of federal and state financial assistance, the Borough is responsible for ensuring that adequate controls are in place to ensure and document compliance with applicable laws and regulations related to these programs.

<u>Budgetary Controls.</u> Town Council approves an annual budget for all funds and approves subsequent adjustments to that budget as needed. The "legal level of control" is the level of detail as approved by Council in its appropriation actions and ordinances. Total expenditures and encumbrances cannot exceed the amount approved by Council at the legal level of control. Legal level of control for the Borough is based on departmental level.

A purchasing control system is maintained which generally requires that an applicable appropriation be controlled through the issuance of encumbrances, authorized purchase orders and work orders before a purchase may be made or a contract executed.

#### **CHANGES IN FINANCIAL POLICIES**

There were no changes in financial policies that had a significant impact on the current period's financial statements.

#### INDEPENDENT AUDIT

The independent accounting firm, Smith Elliott Kearns & Company, LLC, audited the basic financial statement of the Borough of Chambersburg for fiscal year 2010. The financial statements have received an unqualified opinion indicating that, in all material respects, the Borough's basic financial statements are presented fairly and in conformity with accounting principles generally accepted in the United States of America. Auditing standards generally accepted in the United States of America and the standards set forth in the General Accounting Office's Government Auditing Standards were used by the auditors in conducting the engagement. The auditors' report on internal controls and compliance with applicable laws and regulations can be found in the report.

#### **ACKNOWLEDGMENTS**

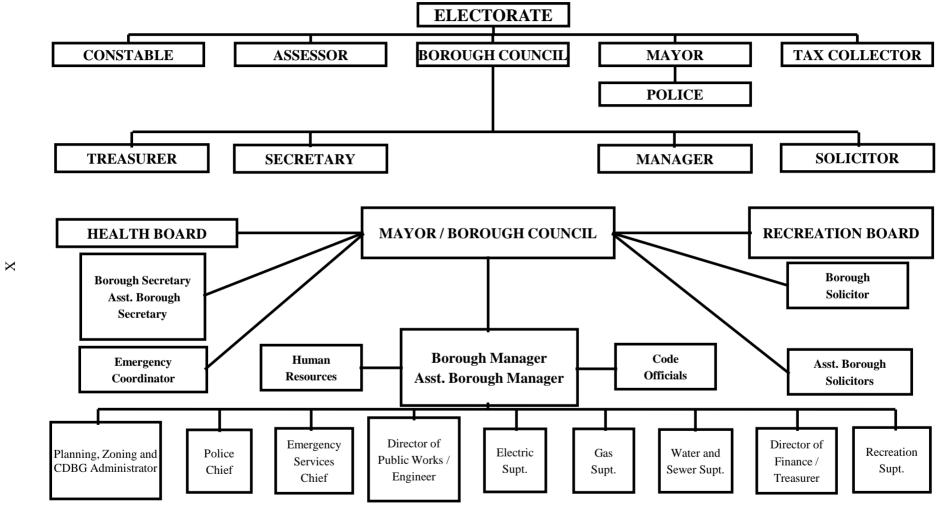

The preparation of this "in depth" financial report has been made possible by the diligent and persistent efforts of the very capable members of our Finance Department. I have always been impressed with the dedication and professionalism that they provide every day. We will continue to strive for improvement in the methods that we employ in serving the residents of the Borough of Chambersburg.

I would also like to thank our Borough Manager, Jeffrey Stonehill, for the confidence and support that he has provided. He definitely thinks "outside the box" and is very well versed in leading a complex organization such as the Borough of Chambersburg. I would also like to express my appreciation to the Mayor and members of Borough Council for their leadership and expectation of excellence. Their guidance and support promotes the high standards of achievement that we have been able to attain.

Respectfully submitted,

Cosimi & Rzomp. Ja

Casimir L. Rzomp, Jr. Director of Finance

#### INDEPENDENT AUDITOR'S REPORT

To the Mayor and Borough Council Borough of Chambersburg Chambersburg, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Chambersburg, as of and for the year ended December 31, 2010, which collectively comprise the Borough's financial statements, as listed in the table of contents. These financial statements are the responsibility of the Borough of Chambersburg's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Chambersburg as of December 31, 2010, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2011 on our consideration of the Borough of Chambersburg's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 14, the schedules of historical pension information and funding progress -OPEB on pages 50 through 52, and budgetary comparison schedules on pages 53 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

To the Mayor and Borough Council Borough of Chambersburg

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Chambersburg's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Smith Elliott Kearns : Company, LLC

Chambersburg, Pennsylvania June 17, 2011

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

The management of the Borough of Chambersburg provides the following information as an introduction, overview, and analysis of the Borough's financial statements for the year ended December 31, 2010. Readers should also review the basic financial statements and related footnotes on pages 15-48 to further enhance their understanding of the Borough's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

#### **Using this Annual Financial Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can first understand the Borough of Chambersburg as a financial whole. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Assets and Statement of Activities (referred to collectively as the government-wide statements) provide information about the activities as an entire operating entity, presenting both an aggregate view of the Borough's finances and a longer-term view of those assets and liabilities. Major fund statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The proprietary funds' statements are prepared on the same basis as the government-wide statements.

#### Reporting on the Borough of Chambersburg as a Whole

#### Statement of Net Assets and Statement of Activities

These government-wide statements answer the question "How did the Borough as a whole do financially during 2010?" They are prepared on the accrual basis of accounting, much the same way as for a private enterprise. This basis of accounting includes all assets and liabilities and takes into account all of the reporting year's revenues and expenses regardless of when the cash was received or paid.

- The Statement of Net Assets. This statement (page 15) reports all assets and liabilities of the Borough as of December 31, 2010. The difference between total assets and total liabilities is reported as "net assets". Increases in net assets generally indicate an improvement in financial position while decreases may indicate a deterioration of financial position.
- The Statement of Activities. This statement (page 16) serves the purpose of the traditional income statement. It provides consolidated reporting of the results of all activities of the Borough for the year ended December 31, 2010. Changes in net assets are recorded in the period in which the underlying event takes place, which may differ from the period in which cash is received or disbursed. The Statement of Activities displays the expense of the Borough's various programs net of related revenues, as well as a separate presentation of revenues available for general purposes.

A more detailed explanation of these statements is found in note 1 on pages 26 to 35 in the Notes to the Financial Statements.

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

#### Reporting on the Borough of Chambersburg's Most Significant Funds

#### Fund financial statements

These statements provide financial position and results of operations of the Borough's major funds. A fund is an accounting entity created to account for a specific activity or purpose. Major funds of the Borough of Chambersburg are the General Fund, Electric Fund, Gas Fund, Water Fund, and Sewer Fund. The creation of some funds is mandated by law and others are created by management to demonstrate financial compliance with budgetary or legal requirements. Funds are classified into three broad categories: governmental funds, proprietary funds, and fiduciary funds.

• Governmental funds. Governmental funds are used to account for "governmental-type" activities. Unlike the government-wide financial statements, governmental fund statements use a "flow of financial resources" measurement focus. That is to say, the operating statement of a governmental fund attempts to answer the question "Are there more or less resources that can be spent in the near future as a result of events and transactions of the reporting period?" Increases in spendable resources are reported in the operating statement as "revenues" or "other financing sources." Decreases in spendable resources are reported as "expenditures" or "other financing uses." We describe the differences between governmental funds and governmental activities (reported in the Statement of Net Assets and the Statement of Activities) in reconciliations presented on pages 18 and 20.

The Borough of Chambersburg maintains separate governmental funds. The governmental fund financial statements on pages 17 through 20 separately display the governmental funds considered to be major funds. All other governmental funds - the "non-major" funds - are combined into a single column. Detailed financial data for each of the non-major governmental funds is provided in combining statements in the supplementary information section of this report.

• Proprietary funds. There are two types of proprietary funds: enterprise funds and internal service funds.

<u>Enterprise funds</u> - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises for which either 1) the intent is that the costs (expenses, including depreciation) be recovered primarily through user charges, or 2) determination of net income is appropriate for management control, accountability or other purposes.

The Borough of Chambersburg's Electric, Gas, Water, and Sewer Funds are all considered to be major funds and are displayed separately in the proprietary fund statements on pages 21 through 23. The Borough has two other proprietary funds, Sanitation and Parking, the activities of which are combined into one column for non-major funds.

<u>Internal Service funds</u> - Often, governments wish to allocate the cost of providing certain centralized services (e.g., motor pools, data processing, warehouses) to the other departments of the government entity that uses the services. An internal service fund is the appropriate accounting mechanism when it is the intent of the government to recover the full cost of providing the service through user charges to other departments.

The Borough of Chambersburg's six internal service funds are combined into a single column in the proprietary fund financial statements. Detailed financial data for those funds can be found in the combining statements in the supplementary information section of this report.

• Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the Borough's government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Borough's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Fiduciary fund statements are on pages 24 - 25 of this report.

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

#### **Other Information**

#### Notes to the basic financial statements

The notes provide additional and explanatory data. They are an integral part of the basic financial statements.

#### Required supplementary information

In addition to the basic financial statements and notes, this report also contains required supplementary information (RSI). RSI includes schedules of historical pension information OPEB required schedule of funding progress and budgetary schedules for the general fund and grant programs fund. This data is on pages 49 through 54 of this report.

#### The Borough of Chambersburg as a Whole

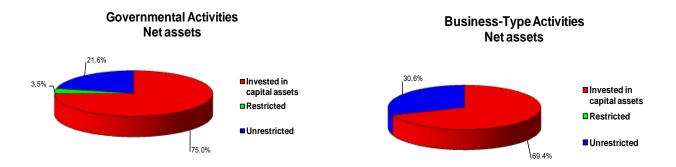

The following table presents condensed information on net assets as of December 31, 2010 and 2009.

| Other business-type activities     | 0                       | 2,256,246                | 2,256,246        |
| Total expenses                     | 12,645,644              | 52,558,577               | 65,204,221       |
| Excess before transfers            | 305,385                 | 1,893,806                | 2,199,191        |
| Transfers                          | 1,705,586               | ( 1,705,586)             | 0                |
| Change in net assets               | \$ 2,010,971            | \$ 188,220               | \$ 2,199,191     |

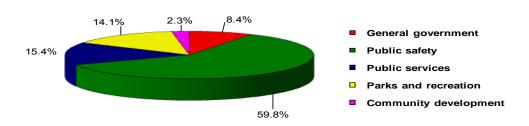

Net assets increased by \$5.19M in 2010 for "total activities" compared to an increase of \$2.20M in 2009 for the same "total activities". This is a \$2.99M increase in overall performance for 2010 compared to 2009 and is the result of a decrease in revenues of \$.31M with a corresponding decrease in expenses of \$3.31M. There was \$3.2M increase in charges for services in business-type activities with a corresponding decrease of \$4.35M in expenses. Within the business-type activities, the electric department alone experienced an increase in billed revenues of \$3.98M in 2010 while also experiencing a \$3.21M decrease in expenses. This situation which amounts to an increase of \$7.19M in performance can be primarily attributed to a continued and significant instability in the electric markets resulting in a corresponding decrease in electric purchase costs for 2010 from 2009.

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

The Borough's governmental activities' largest revenue source, real estate taxes, increased by \$22,653 or .6% in 2010. This was a smaller increase than the 2.3% increase for the year ended December 31, 2009. The increase in real estate revenues was mainly due to an increase in the taxable assessed value of .4% for year ended 2010. There was no increase in the mill rate for 2010. Even in light of continued dismal economic conditions, the earned income tax receipts increased \$133,948 or 9.64% in 2010 while the real estate transfer tax decreased \$31,051 or 11.42% in 2010.

Expenses of governmental activities break down as follows:

### Governmental Expenses by Program 2010

Total governmental expenses for 2010 were \$13.7 million. Public safety, which consisted primarily of police, fire and ambulance services, comprised 59.8% of the total governmental expenses. Public service expenses, which include streets overlaying and repairs, were 15.4%. Leisure time activities represented by the parks and recreation portion of expenses were 14.1% of the total. General government expenses were 8.4%. Community development comprised 2.3% of total expenses.

The Statement of Activities reports expenses of each of the governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the cost of a particular program exceeds its program revenue represents the extent to which that program must be subsidized by general revenues, such as property taxes, earned income taxes, local services taxes, deed transfer taxes and others.

The following table and graph summarize the net cost of each program:

# Expenses and Program Revenue - Governmental Activities 2010

The above chart and graph illustrates the priority that Chambersburg places on the safety of its citizens.

#### Business-type activities

Business-type net assets increased \$5,986,505 in 2010. Each business-type activity, except for electric and sewer had a decrease in revenues. Electric revenues increased 12.9%, gas revenues decreased 11.6%, water revenues decreased 5.3%, sewer revenues increased 11.6%, sanitation revenues decreased .3% and parking department revenues decreased .4%. The total increase in billed revenues was \$3,181,343 or 6.38%.

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

The following table and graph summarize the expenses and program revenues for business-type activities:

#### Expenses and Program Revenue - Business-type Activities For Year Ended December 31, 2010

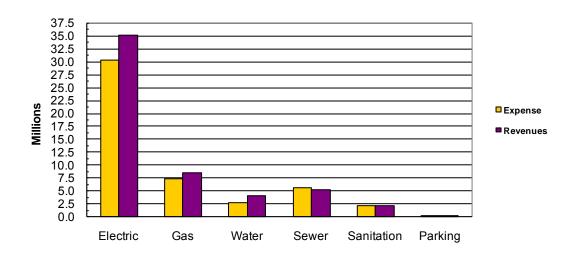

|                                | Expenses     | Charges for<br>Services | Operating Grants and Contributions | Capital<br>Grants and<br>Contributions | Net<br>(Expense)<br>Revenue |

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

## Expenses and Program Revenue - Business-Type Activities 2010

#### **Individual funds summary and analysis**

Governmental funds focus on spendable resources and near-term inflows and outflows of those resources. As such, fund balance is generally a good indicator of net resources available for spending at the end of the fiscal year, subject to any stated restrictions on its use.

The combined fund balances of the Borough's governmental funds at December 31, 2010 were \$5.5 million as compared to \$8.1 million at December 31, 2009.

The General Fund is the primary operating fund of the Borough of Chambersburg, accounting for such activities as police and fire protection, ambulance services, highways, parks and recreation, and general governmental services. The General Fund balance decreased from \$2,139,230 to \$1,375,034.

#### **Budget variations**

Operations for the Borough's general fund resulted in an overall favorable net budget variance of \$54,199 for the year ended December 31, 2010. That means that we had \$54,199 more in net cash inflows than was budgeted. We budgeted a <u>net excess of expenditures over net revenues</u> of \$818,395 (negative) but finished the year with a <u>net excess of expenditures over revenues</u> of \$764,196 (negative). Total expenditures exceeded total revenues by \$2,198,196 and net interfund transfers from other Borough funds amounted to \$1,434,000 creating the overall negative results of (\$764,196) for net receipts.

We had an unfavorable budget variance of \$363,027 or 3.15% of total **budgeted expenditures** (\$11,507,595). We also had a favorable budget variance of \$436,226 or 4.7% of total budgeted revenues (\$9,236,200). Also, we transferred \$12,000 more than budgeted or \$1,984,000 from the enterprise departments into the general fund. We originally budgeted \$1,972,000 to be transferred from the enterprise funds into the general fund, but transferred \$1,984,000 which is \$12,000 more. Additionally, we transferred \$31,000 from the general fund into the general capital reserve fund on behalf of the recreation department which was not budgeted.

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

Of the favorable revenue variance (\$436,226), **the lion's share or \$458,226 (over 100%)**, was due to an underestimate in the budgeted amount of charges for services to other Borough departments. We had an overestimate in tax revenues of \$80,484 whereas we budgeted receipts of taxes at \$6,433,500 and had receipts of \$6,353,016 resulting in the unfavorable variance in tax receipts. Local economic activity is apparently still at a lower level than was predicted during budget preparations.

On the expenditure side, of the unfavorable variance (\$363,027), **74.0** % (\$268,652) can be attributed to under budgeting expenditures for the general health and ambulance service activities. Additionally, **48.18**% (\$174,899) can be attributed to under budgeting for expenditures for general government. The under budgeting in these two departments accounted for 122% (\$443,551) of the total unfavorable expenditure variance.

#### **Changes in fund equity**

The fund balance in the *general fund* decreased by \$764,196 in 2010. This was because current expenditures (\$11,870,622) exceeded total revenues (\$9,672,426) by \$2,198,196. Net transfers (\$1,434,000) from other operating departments offset a large portion of the deficiency leaving \$764,196 as the net decrease in fund balance for the general fund. The primary underlying reason for the decrease in resources available to the general fund was basically an increase in expenditures of \$1,117,117 (10.4%). Even with an increase of \$612,015 (6.8%) in revenues, we ended the year with a deficit of \$882,781. The deficit reduced the fund balance in the general fund to \$1,375,034 in 2010 from \$2,139,230 in 2009. In effect, the fund balance decreased by 35.7% in 2010.

The fund balance in the *grants programs fund* increased by \$85,154 in 2010. Revenues increased by \$19,878 to \$830,243 in 2010 while expenditures decreased by \$107,652 to \$658,800. This increase in resources provided an overall increase in the fund balance of \$85,154 for 2010 while we had an increase in fund balance of \$49,340 for 2009.

The net assets in the *enterprise funds* increased by \$5,333,060 or 5.72% in 2010 compared to a decrease of \$393,518 or .42% for 2009. Most of the increase for 2010 can be attributed to the electric department, whose fund balance increased by \$3,682,215 or 11.02% in 2010. Operating revenues for the electric department increased substantially by \$3,943,805 or 12.82% to \$34,706,856 while operating expenses decreased by \$3,058,229 or 9.25% to \$29,987,609. The fund balance for the electric department increased by \$3,682,215 or 11.02%, to a total of \$37,095,053. A major element in the decrease in expenditures in 2010 for the electric department was the ability to produce and sell a larger quantity of electricity on the open market than in 2009. This reduced the net cost of electricity by \$2,188,492 or 8.79% and contributed substantially to a much better performance for the electric fund in 2010.

Also, the net assets in the gas department increased by \$634,000 or 5.87% over 2009. The fund balance for the water department increased by \$1,393,013 or 5.36% over 2009. The fund balance for the sewer department decreased by \$353,855 or 1.65% to \$21,070,518 in 2010 from \$21,424,373 in 2009. Lastly, the fund balance in the "other enterprise funds" (sanitation and parking) decreased by \$22,313 or 1.37% to \$1,611,018.

The net assets in *the internal services funds* increased by a total of \$685,039 or 4.99% compared to an increase of \$558,061 or 4.23% in 2009. Operating revenues totaled \$4,462,290, increasing by 2.54% over last year's operating revenues of \$4,351,667. Operating expenditures totaled \$4,025,525 decreasing by 4.39% over last year's operating expenditures of \$4,210,485.

#### Capital asset and debt administration

#### Capital asset activity

The Borough continued to make investment in infrastructure and equipment upgrades in 2010 by utilizing capital reserve accounts. The Borough spent \$369k on the reconstruction of Edgar Avenue, Horst Avenue, Hudson Avenue and Ohio Avenue; along with thousands of dollars in utility maintenance work to gas lines, sewer lines and water lines, prior to the construction. Additionally, the Borough spent \$128k on the overlay of ten streets. The Borough also spent \$210k installing a new traffic signal at Norland Avenue and Edgar Avenue. In addition, the Borough's

Management's Discussion and Analysis for the Year Ended December 31, 2010 Unaudited

electric department completed the upgrade of the Commerce Street substation for \$104k along with thousands of dollars of in-house engineering and related electric system upgrades. The Borough water department began an upgrade of the plant instrumentation, control and renovation for the Julio D. Lecuona Water Treatment Plant, in the total bid amount of \$1.55m. The Borough's highway department contracted for the design and construction of a new salt storage facility at a cost of \$119k not including the additional cost of constructing a fence around the facility or installing a paved driveway. Also, the Borough purchased a number of new vehicles in 2010: a new 2009 Ford F-450 Type 1, a 4-WD Modular J&J Road Rescue Ambulance for \$177k; a new 2010 JCB 460B Compact Wheel Loader for the electric department for \$50k; two new 2010 Ford Escape Hybrid vehicles for the police department for \$61k; a new 2011 Ford F-350 4WD enclosed Utility Body Truck for the gas department for \$34k; a new 2010 Case 580 Loader / Backhoe for the gas department for \$80k; a new 2011 Ford F-250 4WD Crew Cab Pickup Truck w/Plow for the fire department for \$32k; and a new 2011 Ford F-350 2WD Utility Body Truck being for the water/sewer department for \$33k. Finally, the gas and water & sewer departments continued to replace and upgrade many service laterals and valves in order to stay ahead of significant capital needs.

Additional detail on the capital asset activity for the year ended December 31, 2010 is presented in the Notes to the Basic Financial Statements in note 4.

#### Debt

A summary of outstanding debt at December 31, 2010 and 2009 is as follows:

# RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2010

| Net change in fund balances - total governmental funds:  | (\$                     | 2,593,574) |
|--|-------------------------|------------|
| Amounts reported for Governmental Activities in the Statement of Activities are different because:   |                         |            |
| Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense differs from capital outlays in the period.  Depreciation expense Capital outlays | 1,246,439)<br>3,253,514 | 2,007,075  |
| In the statement of activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase other financing  |                         | _,,,,,,,   |
| sources. Thus, the change in net assets differs from the changes in the fund balance by the cost of the capital assets sold  | (                       | 1,237)     |
| Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.  | (                       | 84,311)    |
| In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year the net amount earned or (used) was:                          | (                       | 17,526)    |
| Net Other Post Employment Benefits (OPEB) obligation does not require the use of current financial resources and, therefore, is not reported as an expense in the governmental funds.  | (                       | 137,124)   |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.   | _                       | 31,594     |
| Change in net assets - governmental activities   | (\$                     | 795,103)   |

#### NOTES TO THE FINANCIAL STATEMENTS

# Note 1. Summary of Significant Accounting Policies

#### **Nature of Operations**

The financial statements of the Borough of Chambersburg have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

#### **Reporting Entity**

The GASB defines the criteria used to determine the composition of the reporting entity. These standards require that the reporting entity include (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and with it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for the governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation in some manner for the debt of the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the primary government.

Based upon the application of these criteria, the following component unit meets the criteria for blending and is included within the reporting entity:

The Municipal Authority of the Borough of Chambersburg (the "Authority") is governed by a Board appointed by Borough Council. The Authority had no financial activity during 2010. See Note 11 for additional information.

#### **Fund Accounting**

The Borough uses funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance/net assets/(deficit), revenue, and expenditures/expenses. The various funds of the primary government are grouped into the categories of governmental, proprietary, and fiduciary.

#### **Fund Accounting (Continued)**

#### **Governmental Funds**

Governmental Funds are those through which most governmental functions of the Borough are financed. The measurement focus is on the flow of expendable resources, rather than on net earnings determination.

The Borough reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the general operating fund of the Borough. This fund is used to account for all financial transactions except those required to be accounted for in another fund. This is a budgeted fund, and any unrestricted fund balances are considered as resources available for use.

<u>Special Revenue Fund - Grant Programs</u> is used to account for the majority of the grants obtained by the Borough for the governmental activities.

Additionally, the Borough reports the following non-major governmental funds:

<u>Special Revenue Funds</u> – These funds are used to account for proceeds of specific revenue sources used to finance specific activities as required by law or administrative regulation. The Borough has two Special Revenue Funds, the Grant Program Fund above and the following:

<u>Liquid Fuels Fund</u> is used to account for state liquid fuels tax revenue used primarily for building, improving, and maintaining local roads and bridges.

<u>Capital Reserve Fund</u> – This fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds).

#### **Proprietary Funds**

Proprietary funds are used to account for activities similar to those found in the private sector, where the focus of proprietary funds is on the determination of net earnings and capital maintenance. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds).

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and enterprise fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

The Borough's enterprise funds consist of:

*Electric Department* – Provides electric power and related services to the Borough of Chambersburg and all customers, both residential and commercial, throughout the Borough.

*Gas Department* – Provides natural gas and related services to the Borough of Chambersburg in addition to its residential and commercial customers throughout the Borough and within its proximity.

*Water Department* – Provides water and related services, including laboratory analyses, to the Borough of Chambersburg, its residents, business establishments and various customers within the proximity of the Borough.

#### **Proprietary Funds (Continued)**

**Sewer Department** – Provides wastewater treatment services for the Borough of Chambersburg, its residents, commercial establishments and various customers located within the neighboring areas of Greene Township, Guilford Township, Hamilton Township and Letterkenny Township.

**Sanitation Department** – Provides trash and garbage removal for the Borough of Chambersburg, its residents and commercial establishments throughout the Borough.

**Parking Department** – Regulates and controls vehicle parking throughout the Borough of Chambersburg.

The Borough's Electric, Gas, Water, and Sewer departments are considered major enterprise funds. The Sanitation and Parking departments are considered non-major enterprise funds.

*Classification of Revenues* - For proprietary funds, the Borough has classified its revenues as either operating or nonoperating revenues according to the following criteria:

- Operating Revenues Operating revenues include activities that have the characteristics of exchange transactions, such as (1) utility billings; (2) penalties and late charges; and (3) other miscellaneous sales.
- Nonoperating Revenues Nonoperating revenues include activities that have the characteristics of non-exchange transactions (in which the Borough receives value without directly giving equal value in return), such as contributions and grants, and other revenues that are defined as nonoperating revenues by GASB No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting and GASB No. 34, such as investment earnings. Tap fees are also considered nonoperating since they are charged based on future capacity needs of the system and are not based on an exchange-type transaction.

Internal service funds of a government (which traditionally provide services primarily to other funds of the government) are presented, in summary form, as part of the proprietary fund financial statements. Since the principal users of the internal services are a combination of the Borough's governmental and enterprise funds, financial statements of internal service funds are allocated based on the usage of those funds and included in the governmental and business-type column when presented at the government-wide level. The costs of these services are allocated to the appropriate functional activity.

The Borough's internal service funds consist of:

**Stores Fund** – The Stores Department is responsible for the purchase, storage, and disbursal of inventory which is used to support the construction and maintenance functions of the Borough utilities.

**Administrative Services Fund** – Administrative Services is synonymous with the Finance Department which is responsible for the complete financial, utility meter reading, and parking meter operations as well as the operation and maintenance of Borough Hall.

*Motor Equipment Fund* – This fund supports the activities of the Motor Equipment Department which manages a rolling stock of more than 120 vehicles.

*Self-insurance Fund* – This fund is used for the purpose of funding risk which the Borough does not transfer to commercial insurance carriers or insurance pools.

**Engineering Fund** –This fund supports the activities of the Engineering Department which is responsible for furnishing engineering, surveying, drafting, and utility location information to other departments. The department also designs and inspects public works projects.

#### **Proprietary Funds (Continued)**

*Worker's Compensation* – This fund underwrites the risks to the Borough resulting from job-related injury or illness to its employees.

The major fund concept does not apply to internal service funds.

#### **Fiduciary Fund Types**

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds (Firemen's, Police, and Bargaining and Administrative Employees), investment trust funds, private-purpose trust funds (Citizen's Reward, Sister City and Project Heat), and agency funds (Payroll Clearing, Consumer Deposit).

Trust funds are used to account for assets held by the Borough under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Borough's own program. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

The Borough's fiduciary funds consist of:

**Police Pension Fund** - This fund is used to account for the accumulation of resources for pension benefit payments to qualified public safety (police) employees.

**Bargaining and Administrative Employees Pension Fund** - This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees of the Borough other than police or fire department employees.

*Firemen's Pension Fund* - This fund is used to account for the accumulation of resources for pension benefit payments to qualified Fire Department employees.

*Citizen's Reward Fund* - Trust fund used to hold contributions from private citizens for the purpose of rewarding police informants for their assistance in solving crime.

**Sister City Fund** - Trust fund used to hold money that accumulates for the specific purpose of "sister city" activities. Our sister city is Gotemba, Japan.

**Project HEAT Fund** - Trust fund to hold contributions from citizens for the purpose of assisting others pay their utility bills.

**Payroll Clearing Fund** - An account to temporarily hold every dollar expended through the payroll system. This includes net payroll, all taxes withheld, miscellaneous deductions and employers' share of Social Security/Medicare expense. Theoretically, every dollar contained within the account will eventually be paid out in net pay, taxes or other deductions.

Consumer Deposits Fund - Agency fund used to hold deposits on behalf of utility customers. Interest is earned and "tracked" for individual customers at the Borough's composite interest rate. These funds can be used to settle an outstanding account or returned to the customer whenever a "good credit history" record is attained. These funds are also returned to the customer whenever they move outside the Borough. Occasionally, some deposits and or down payments from other individuals and organizations for other purposes are deposited in this account and held until final resolution has occurred.

#### **Basis of Presentation**

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the Borough as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the Borough that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financials, but differs from the manner in which governmental fund financials are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Borough, and for each function or program of the Borough's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program and grants and contributions that are restricted to meeting the operation or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Borough, with certain limited exceptions. The comparison of direct expenses and program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the Borough. The net assets restricted for program expenditures are restricted by external grantors and contributors, or laws or regulations of other governments.

Fund Financial Statements – Fund financial statements report detailed information about the Borough. The focus of the governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The major fund concept does not apply to internal service funds which are considered proprietary funds and are presented with enterprise funds. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Borough finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus. However, agency funds have no measurement focus.

#### **Basis of Accounting**

The government-wide, proprietary, and fiduciary fund (except agency fund) financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net assets (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net assets. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net assets. The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenue from federal, state, and other grants designated for payment of specific Borough expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the Borough's policy to use restricted resources first, then unrestricted resources as they are needed.

# **Budgets**

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general fund, liquid fuels fund, capital projects, grant program, and proprietary funds. All annual appropriations lapse at year end and must be reappropriated. Budgets are not revised during the year. Encumbrance accounting is utilized for internal management purposes, but not for financial reporting. The budget is prepared and approved at the departmental level. The department presented in the Budgetary Comparison Schedules included as required supplementary information represent the legal level of budgetary control.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the disclosure of contingent assets and liabilities, if any, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Cash, Cash Equivalents and Investments

Cash and cash equivalents include cash on hand, demand deposits, and in accordance with GASB pronouncements, each fund's equity in the Borough's investment pool since each fund can deposit or effectively withdraw cash at any time without prior written notice or penalty. Cash and cash equivalents on the Proprietary Funds' cash flow statements are in agreement with the amounts listed on the related statement of net assets as "cash and equity in pooled cash and investments".

#### **Cash, Cash Equivalents and Investments (Continued)**

Investments are reported at fair value based on quoted values from established markets. Managed funds related to the retirement systems not listed on an established market are reported at estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities. Income, including the change in fair value, from investments held by the individual funds is recorded in the respective fund as it is earned. All other investments owned by the Borough are accounted for in pooled cash and temporary investment accounts. Income earned from this pooling of investments is allocated monthly to the respective funds based upon month end balances.

#### **Inventories**

Inventories held by the Electric, Gas, Water, Sewer, and Stores Funds, as well as fuel in the Motor Equipment Fund are priced using the moving weighted-average method. Inventories of parts held by the Motor Equipment Fund are stated at the lower of cost or market, cost being determined using the first-in/first-out (FIFO) method.

#### **Capital Assets**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type column of the government-wide statement of net assets and in the respective fund.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair values as of the date received. The Borough maintains a capitalization threshold of \$ 2,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets are not capitalized.

Infrastructure assets that have been acquired since 1980 have been recorded in accordance with GASB requirements. These consist mainly of highway improvements.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Governmental<br>Activities | Business-Type<br>Activities  |
|----------------------------|--|
| 10-20 years                | 10-20 years  |
| 40-50 years                | 40-50 years  |
| 8-40 years                 | 8-40 years   |
| 20-50 years                | 20-50 years  |
| 25 years                   | N/A  |
| 25 years                   | N/A  |
| 5-50 years                 | N/A  |
|                            | Activities  10-20 years 40-50 years 8-40 years 20-50 years 25 years 25 years |

#### **Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Borough or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

#### **Interfund Transactions**

Advances between funds are accounted for in the appropriate interfund receivable and payable accounts. Advances between funds which are not expected to be repaid are accounted for as transfers. Interfund balances and transactions are eliminated in the government-wide financial statements.

Exchange transactions, if any, between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and are shown separately in proprietary funds.

#### **Allowance for Uncollectible Accounts**

The Borough provides credit to its customers in the normal course of business. Receivables are generally due thirty days after billed. The Borough provides an allowance for uncollectible accounts equal to the estimated losses based on historical collection experience that will be incurred in the collection of all receivables

#### Loans Receivable

Loans receivable on the statement of net assets (classified in "other receivables") represent loans made to low income residents under a revolving loan program funded by the Pennsylvania Department of Community and Economic Development (DCED) and the Federal HOME Program, as well as a loan agreement with the Chambersburg Area Development Corporation for the renovation of the Heritage Center funded by DCED.

# **Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business type activity columns in the statement of net assets. This same treatment also applies to proprietary fund financial statements.

Bond premium and discounts, loss on refinancing, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount and loss on refinancing. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### **Pension Trust Funds**

The GASB requires a statement of plan net assets and a statement of changes in plan net assets. These are shown as part of the fiduciary statements. It also requires plan investments to be recorded at their fair value and establishes standards for the measurement, recognition, and display of pension expense and related liabilities, assets, and note disclosures.

# **Deferred Compensation Plan**

The Borough has established a deferred compensation plan under Internal Revenue Code Section 457 which covers all employees. All assets and income of the plan are held for the exclusive benefit of the plan's participants and their beneficiaries. In accordance with the provisions of the GASB, the assets and liabilities of the plan are not reported on the financial statements of the Borough.

#### **Compensated Absences**

Liability for compensated absences is accounted for in accordance with the provisions of the GASB, which require entities to accrue for employees' rights to receive compensation for vacation leave, or payments in lieu of accrued vacation or sick leave, as such benefits are earned and payment becomes probable.

Under terms of the Borough's employment agreements, employees are granted vacation and sick leave in varying amounts. Vacation days not used by December 31 are lost unless otherwise approved, or are retained if employed for at least 20 years by the Borough. All employees (including uniformed police) are permitted to accumulate unlimited sick days. Upon retirement from the Borough, employees with a certain number of years of continuous service are reimbursed as follows for their accumulated sick leave:

- ⇒ Administrative and Bargaining Unit 1% per year of service of unused sick leave up to a maximum of 90 days pay for employees with at least five (5) years of continuous employment.
- ⇒ **Police** any sick leave accumulated in excess of 100 days at \$ 30-\$ 40 per day.
- ⇒ Fire 15% to 27.5% of accumulated sick leave, up to a maximum of 1,012.8 hours.

#### Other Postemployment Benefits Other Than Pension

The Borough provides post retirement benefits by permitting retired employees the ability to participate in the employee health plan. Even though the retirees pay 102% of the Borough's blended premium rate, the Borough is still providing an implicit rate subsidy to its retirees. These benefits are financed on a pay-as-you-go basis. The Borough provides no other post employment benefits for Borough employees.

#### **Statement of Cash Flows - Proprietary Fund**

Because the Borough accounts for all deposits and investments through a Central Treasury function, all investments are considered to be cash equivalents for purposes of the statement of cash flows.

#### **Deficit Net Assets**

The Administrative Services Fund and Worker's Compensation Fund (internal service funds) have deficit net asset balances of \$ 269,727 and \$ 4,762, respectively, at December 31, 2010.

#### **Recently Issued Accounting Standards**

In February 2009, GASB issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Governments are required to classify and report amounts in the appropriate fund balance classifications by applying their accounting policies that determine whether restricted, committed, assigned, and unassigned amounts are considered to have been spent. Disclosure of the policies in the notes to the financial statements is required. Governments are also required to disclose information about the processes through which constraints are imposed on amounts in the committed and assigned classifications. Statement No. 54 also provides guidance for classifying stabilization amounts on the face of the balance sheet and requires disclosure of certain information about stabilization arrangements in the notes to the financial statements. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions.

The requirements of Statement No. 54 are effective for financial statements for periods beginning after June 15, 2010. Fund balance reclassifications made to conform to the provisions of this Statement should be applied retroactively by restating fund balances for all prior periods presented. While earlier application of the Statement is encouraged, the Borough has not completed the process of evaluating the impact of Statement No. 54 on its financial statements.

#### Note 2. Cash and Cash Equivalents

The Borough is authorized to invest in the following:

- U.S. Treasury Bills.
- ➤ Short-term obligations of the U.S. Government or its agencies.
- ➤ Deposits in savings accounts or certificates of deposit insured by the FDIC or NCUSIF to the extent that such accounts are so insured and for any amounts above the insured maximum, provided that approved collateral as provided by law shall be pledged by the depository.
- ➤ Obligations of the U.S. Government, Commonwealth of Pennsylvania, or any agency, instrumentality, or political subdivision thereof, backed by the full faith and credit of the applicable government.
- Pennsylvania Local Government Investment Trust (PLGIT) Funds.
- Pennsylvania Treasury's INVEST program which is similar in concept to money market funds.

#### **Deposits**

# **Custodial Credit Risk – Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the Borough's deposits may not be returned to it. The Borough does not have a written policy for custodial credit risk. As of December 31, 2010, the Borough has a bank balance of \$ 1,307,733. Of this balance, \$ 458,643 is covered by FDIC insurance and the remaining balance of \$ 849,090 is collateralized by securities held by the pledging financial institution.

#### Note 2. Cash and Cash Equivalents (Continued)

#### **Investments**

As of December 31, 2010, the Borough's investments were as follows:

|                   |               | Credit Quality |
|-------------------|---------------|----------------|
| Investment Type   | Fair Value    | Rating         |
| PLGIT/PLGIT PLUS  | \$ 10,254,431 | AAAm           |
| PLGIT - CDs       | 23,916,000    | AAAm           |
| PA Invest Program | 1,434,462     | AAAm           |

#### **Credit Risk – Investments**

The Borough has no investment policy that would limit its investment choices to certain credit ratings.

Included in cash and cash equivalents on the statement of net assets are pooled investments in the Pennsylvania Local Government (PLGIT) of \$ 10,254,431. These funds are basically mutual funds that consist of short-term money market instruments and seek to maintain a constant net asset value of \$ 1 per share.

#### **Interest Rate Risk – Investments**

The following investments are subject to interest rate risk:

|             | Total         | <b>Investment Matur</b> | ities (in Years) |
|-------------|---------------|-------------------------|------------------|
|             | Fair          | Less                    | _                |
|             | Value         | Than 1                  | 1-5              |
| PLGIT - CDs | \$ 23,916,000 | \$ 9,628,141            | \$ 14,287,859    |

The Borough does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### **Municipal Pension Plans**

Investments held by the trustees of the pension plans are as follows:

|                       | Total Fair<br>Value | Investment<br>Maturities |
|-----------------------|---------------------|--------------------------|
| Investment            |                     | _                        |
| Money Market Funds    | \$ 2,302,380        | N/A                      |
| Open End Mutual Funds | 25,263,902          | N/A                      |
| Total                 | \$ 27,566,282       |                          |

#### **Credit Risk**

The Borough does not have a formal policy pertaining to credit risk. For the investments that have a credit quality rating, they were all rated Aaa by Standard & Poors.

#### **Note 2.** Cash and Cash Equivalents (Continued)

#### Foreign Securities and Currencies Risk

Foreign securities prices may decline or fluctuate because of economic or political actions of foreign governments or the possibility that foreign currency will fluctuate in value against the U. S. dollar. Included in the \$ 25,263,902 of Open End Mutual Funds shown above are International Mutual Funds with a fair value of \$ 3,846,638. The International Mutual Funds may be subject to foreign securities and currencies risk.

#### Note 3. Taxes and Other Receivables

Property taxes are levied on March 1 for the tax year. Taxes are payable at a 2% discount if paid before May 1 and at a 10% penalty if paid after the due date of June 30. Outstanding real estate taxes are turned over to a delinquent tax collector on January 15 of each year. After proper notification is made to a property owner, a lien is filed on or about May 1 and must remain in effect for a period of two years before a tax sale may occur.

Taxes are recorded in the funds as revenue by the Borough when received from the tax collector, and accruals are recorded at year-end for taxes expected to be received within 60 days of December 31 in accordance with the modified accrual basis of accounting. The Borough has not established an allowance for uncollectible taxes since experience has demonstrated that substantially all taxes are ultimately collectible.

Receivables as of December 31, 2010 for the Borough's governmental activities, including the applicable allowances for uncollectible accounts are as follows:

| Real estate  | \$ | 272,033   |
|--|----|-----------|
| Earned income tax  |    | 647,240   |
| Real estate transfer tax   |    | 11,611    |
| Ambulance billings   |    | 213,057   |
| Loans receivable   |    | 380,020   |
| Grants receivable  |    | 57,154    |
| Other  |    | 180,017   |
| Allowance for uncollectible accounts   | (  | 141,959)  |
| Receivables - full accrual basis   |    | 1,619,173 |
| Taxes not receivable within 60 days and allocation of internal service funds not recorded in fund financial statements | (  | 141,826)  |
| Receivables - modified accrual basis   | \$ | 1,477,347 |

# Note 4. Capital Assets

Capital asset activity for the Borough consists of the following as of and for the year ended December 31, 2010:

| Cost   Capital assets not being depreciated   Land   |                                      | Beginning<br>Balance | Additions        | Deletions    | Ending<br>Balance |
|--|--------------------------------------|----------------------|------------------|--------------|-------------------|
| Capital assets not being depreciated   Land  | Governmental Activities:             |                      |                  |              |                   |
| Land         \$ 402,857         \$ 0         \$ 0         \$ 402,857           Construction-in-progress         2,330,408         734,378         (1,991,382)         1,073,404           Capital assets         1         1,009         708,206         0         3,022,215           Buildings         4,527,920         49,337         (1,971)         4,575,286           Machinery and equipment         4,667,415         471,316         50,664         5,088,067           Infrastructure - roads         13,092,920         3,453,732         0         16,546,652           Infrastructure - other         5,723,821         0         0         2,478,702           Total cost         35,538,052         5,416,969         2,044,017         38,911,004           Less accumulated depreciation:           Land improvements         1,033,672         104,157         0         1,137,829           Buildings         3,014,471         106,778         0         3,121,249           Machinery and equipment         2,798,554         359,032         51,398         3,106,188           Infrastructure - highways         2,755,158         536,454         0         3,291,612           Infrastructure - highways         2,755,158         536,   |                                      |                      |                  |              |                   |

#### Internal Service Fund Allocation

The capital asset information shown above for governmental activities and business-type activities includes the allocation of capital assets, accumulated depreciation and current year depreciation expense of internal services funds. This allocation is based on the applicable usage of each internal service fund by the governmental activities (32%) and the business-type activities (68%). These allocations were changed in 2010, compared to 2009, thus the beginning balances do not match the previous year financial statements due to reallocating the beginning balance of the internal service funds using the new allocations.

# Note 5. Long-term Liabilities

The changes in long-term liabilities during the year ended December 31, 2010 were as follows:

|  | Beginning<br>Balance   | Additions                                   | Reductions  | Ending<br>Balance  | Unamortized<br>Bond<br>Loss/Discount | Current<br>Portion                                   | Long-term<br>Portion   |

The General Fund and Internal Service Funds have been used in prior years to liquidate the liability for compensated absences in the Governmental Activities.

#### **Note 5.** Long-term Liabilities (Continued)

Internal Service Fund Allocation

The liability for self-insured losses and compensated absences information shown above for governmental activities and business-type activities includes the allocation of self-insured losses and use of compensated absences of internal services funds. This allocation is based on the applicable usage of each internal service fund by the governmental activities (32%) and the business-type activities (68%).

- (A) Pennvest Loan On July 27, 2001, the Borough entered into a loan agreement with the Pennsylvania Infrastructure Investment Authority for \$ 4,400,000 to be used to partially finance the construction of a water system in the Borough, and Green and Guilford Townships. Interest rates range from 2.501% to 3.331%. Principal and interest payments are payable monthly, are based on the full amount of the loan and are due through October 2024. The future principal and interest payments shown below are based on this amount.
- (B) General Obligation Bonds Series of 2007 On June 1, 2007, the Borough issued General Obligation Bonds in the principal amount of \$10,000,000 to be used for a partial refunding of the General Obligation Bonds, Series of 2002 and 2003 and the costs of issuing the Bonds. Annual installments of the debt are to be paid from the Electric Fund vary from \$30,000 to \$1,475,000 and are due through September 1, 2022. Interest rates vary from 3.60% to 4.00%. Interest is payable every March 1 and September 1.
- (C) General Obligation Bonds Series of 2009 On March 1, 2009, the Borough issued General Obligation Bonds in the principal amount of \$ 10,000,000 to be used for a full refunding of the General Obligation Bonds, Series of 2002 and 2003, a partial refunding of the General Obligation Bonds, Series of 2004 and the costs of issuing the Bonds. Annual installments of the debt are to be paid from the Electric and Sewer Funds, which vary from \$ 510,000 to \$ 1,530,000 and are due through September 1, 2017. Interest rates vary from 2.50% to 3.00%. Interest is payable every March 1 and September 1.

The following is a schedule by years and in the aggregate of future minimum bond and note principal and interest payments required at December 31, 2010:

|             | Electric |           |      |           |    | Sewer     |      |          | Water          |           |               |         |    |           |       |          |                  |

|                                | \$ | 3,241,292   | \$ 3,        | 241,292 |  |

Transfers were made to help finance operations of the general or other funds. Transfers were also made during the current year to establish reserves for various future capital improvements. All transfers are considered routine.

#### **Note 7. Pension Plans**

#### Plan Description

The Borough sponsors three single-employer defined benefit retirement plans which cover Bargaining and Administrative Employees, Police Officers and Paid Firemen. Plan provisions are established by municipal ordinance with the authority for municipal contributions required by Act 205 of the Commonwealth.

All regular full-time and certain part-time employees are eligible to participate in the plans. Benefits vest after twelve years of service for Bargaining and Administrative Employees, Paid Firemen and Police Officers. Bargaining and Administrative Employees are eligible for normal retirement after attaining age sixty-five. Eligibility for normal retirement under the Police Officers' and Paid Firemen's plans is attained at age fifty and completion of twenty-five years of service. Benefits under the Bargaining and Administrative plan are based on 1.5% of average monthly pay times the number of years of service not to exceed thirty-five years. Average monthly pay is based on the three years of highest pay out of the last five years of employment. Benefits under the Police Officers' and Paid Firemen's pensions are based on 50% of average monthly pay during the last thirty-six months and the last sixty months, respectively. The Bargaining and Administrative Plan and the Police Officers' Plan also include a disability benefit and survivor benefits.

The Bargaining and Administrative Employees', Paid Firemen, and the Police Officers' plans are generally noncontributory. The Paid Fireman's plan requires employee contributions of 3% as of January 1, 2009. The Borough is required to contribute the remaining amounts necessary to fund the plans, using the actuarial basis specified by the plan.

#### **Note 7.** Pension Plans (Continued)

At January 1, 2009, the date of the most recent actuarial valuation, the participation in each plan is as follows:

|                            | General   |        |         |
|----------------------------|-----------|--------|---------|
|                            | Employees | Police | Firemen |
| Participants:              |           |        |         |
| Retirees and beneficiaries | 81        | 15     | 16      |
| Vested former members      | 10        | 2      | 0       |
| Active employees           | 142       | 34     | 24      |

#### Summary of Significant Accounting Policies

The plans' financial statements are prepared using the accrual basis of accounting. Employer contributions to each plan are recognized when due as required by Act 205 of the Commonwealth. Benefits and refunds are recognized when due and payable in accordance with the terms of the appropriate plan.

Investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Fair value is determined by quoted market price.

At December 31, 2010, there were no individual investments in excess of 5% of plan net assets. In addition, the plans did not have any investment transactions with related parties during the year.

There is no separate, audited GAAP-basis postemployment benefit plan report for the defined benefit plans.

#### Contributions and Funding Policy

Act 205 of the Commonwealth requires that annual contributions be based upon the calculation of the Minimum Municipal Obligation (MMO). The MMO calculation is based upon the biennial actuarial valuation also required by Act 205. Employees are not required to contribute under Act 205; such contributions are subject to collective bargaining. The Commonwealth allocates foreign fire and casualty premiums to assist in pension funding. Any financial requirement above the Commonwealth allocation must be funded by the Borough.

Administrative costs, including investment services, custodial trustee and actuarial services are charged to the appropriate plan and funded from investment earnings.

# Annual Pension Cost and Net Pension Obligations

The Municipality's annual pension cost and related information for each plan follows:

# Note 8. Postemployment Healthcare Plan

#### Plan Description

The Borough has a healthcare plan for retired employees, which is a single employer defined benefit healthcare plan administered by the Borough. The plan provides medical, prescription drug, and vision coverage for both the retiree and spouse. Retirees opting to participate are asked to pay a premium that is less than the Borough's actual cost to provide health care coverage to retirees. The premium amount retirees pay is a blended rate for covering both active and retired Plan members and amounts to 102% of the Borough's current blended premium rate. The fact that the blended rate that the retirees pay is less than the cost of covering retired members and their beneficiaries results in what is known as an "implicit rate subsidy" by the Borough, which gives rise to the other postemployment benefit (OPEB).

#### **Note 8.** Postemployment Healthcare Plan (Continued)

Because the Plan consists solely of the Borough's decision to provide OPEB through the payment of the implied subsidy by extending medical benefits to retirees at the above mentioned blended rate, no stand-alone financial report is available. The Plan is not included in the financial report of another entity. The coverage shall discontinue if the retiree obtains employment where medical coverage is provided, the retiree's spouse insurance coverage covers the retiree, or the retiree qualifies for Medicare coverage.

#### Funding Policy

The Borough funds Plan liabilities on a "pay-as-you-go" basis, and has not established an OPEB trust fund to accumulate assets to fund Plan obligations. The Borough has no statutory or contractual obligation to fund the Plan and only does so at the Borough's discretion. The Borough funds the implicit rate subsidy through the payment of health insurance premiums. For fiscal year 2010, the Borough contributed \$ 59,487 in the form of additional premiums for active employees based on implicit rates for retired employees to the plan. Plan members receiving benefits also contributed \$ 29,402, or approximately 102% of the total premiums.

# Annual OPEB Cost and Net OPEB Obligation

The Borough's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Borough's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Borough's net OPEB obligation to the plan:

| Annual required contribution (ARC)          | \$ 227,541        |
|---|-------------------|
| Estimated interest on Net OPEB obligation   | 15,718            |
| Estimated adjustment to ARC                 | ( <u>21,443</u> ) |
| Annual OPEB Cost                            | 221,816           |
| Employer contributions made                 | ( <u>59,487</u> ) |
| Increase in net OPEB obligation             | 162,329           |
| Net OPEB obligation – beginning of the year | 349,282           |
| Net OPEB obligation – end of the year       | <u>\$ 511,611</u> |

The Borough's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2008-2010 are as follows:

| Fiscal Year | Annual           | Percentage of Annual         | Net OPEB   |
|-------------|------------------|------------------------------|------------|
| Ended       | <b>OPEB Cost</b> | <b>OPEB Cost Contributed</b> | Obligation |
| 12/31/10    | \$ 221,816       | 27%                          | \$ 511,611 |
| 12/31/09    | \$ 240,938       | 32%                          | \$ 349,282 |
| 12/31/08    | \$ 243,974       | 24%                          | \$ 185,254 |

#### **Note 8.** Postemployment Healthcare Plan (Continued)

Funded Status and Funding Progress

As of January 1, 2010, the most recent actuarial valuation date, the plan had the following funding status and progress:

| Valuation<br>Date | Actuarial Actuarial Accrued  Nalue Liability (AAL) -  of Assets Entry Age |   | Į             | Jnfunded AAL<br>(UAAL) | Funded<br>Ratio |       |               |       |
|-------------------|---|---|---------------|------------------------|-----------------|-------|---------------|-------|
| 1/1/2010          | \$  | 0 | \$<br>812,880 | \$                     | 812,880         | 0.00% | \$ 9,425,804  | 8.62% |
| 1/1/2010          | \$  | 0 | \$<br>674,215 | \$                     | 674,215         | 0.00% | \$ 10,934,753 | 6.17% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, will present multiyear trend information in the future, about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

# Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2010 actuarial valuation, the entry age normal cost method was used. The actuarial assumption included a 4.5 percent investment rate of return (net of administrative expenses), annual salary increases of 6% and an annual healthcare cost trend rate of 7.5 percent in 2010, decreasing .5 percent to an ultimate rate of 5.5% in 2014 with rates gradually decreasing from 5.3% in 2015 to 4.2% in 2099 and later. The actuarial value of assets was based on the fair value of assets, of which there are none. The UAAL is being amortized based on a level dollar 30 year open period.

#### Note 9. Risk Management

The Borough is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Borough has established a Self Insurance Fund and a Workmen's Compensation Fund (internal service funds), respectively, to account for and finance its uninsured risks of loss. The Self Insurance Fund services all general liability, directors' and officers' liability, and unemployment compensation claims for risk of loss. The Workmen's Compensation Fund provides coverage up to a maximum of \$ 500,000 for each worker's compensation claim. The Borough has purchased workmen's compensation insurance for claims in excess of coverage provided by the Fund, and also has purchased vehicle insurance and employee bonding coverage. Settlements have not exceeded insurance coverage for each of the past three years.

The general fund, all enterprise funds, and all internal service funds (except the Insurance Funds) participate in the program and make payments to the Self Insurance and Workmen's Compensation Funds (Insurance Funds) based on estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses.

#### **Note 9.** Risk Management (Continued)

Insurance Fund liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities are computed under actuarial formulas and include an amount for claims that have been incurred but not reported.

Changes in the general and workers' compensation claims liability amounts for the prior two years were:

|                            | Liability<br>Beginning | Current Year<br>Claims and<br>Changes in<br>Estimates | Claim<br>Payments | Liability<br>Ending |  |
|----------------------------|------------------------|---|-------------------|---------------------|--|
| 2010                       | ~ vg                   |   | - wj              |                     |  |
| Self-insurance fund        | \$ 31,725              | \$ 74,322   | (\$ 4,528)        | \$ 101,519          |  |
| Workers' compensation fund | 508,420                | 182,154   | ( 175,996)        | 514,578             |  |
| 2009                       |                        |   |                   |                     |  |
| Self-insurance fund        | \$ 93,804              | \$ 67,227   | (\$ 29,306)       | \$ 131,725          |  |
| Workers' compensation fund | 445,360                | 355,216   | ( 292,156)        | 508,420             |  |

The Borough is part of the Capital Region Insurance Trust (CRIT). This trust consists of a group of municipalities that have pooled their interests together in order to establish a self funded medical insurance plan in order to better control insurance rates. The Borough pays a premium to CRIT that consists of a portion for actual claim expenses, administrative costs, reinsurance costs and a reserve account. At year end, the actual claims of the Borough are reviewed and the reserve account is used to fund any excess claims for the Borough over premiums paid during the year. If any funds remain in the reserve account, 15% of the total reserve balance could possibly be used to fund claim overages for the trust. The reinsurance policy that is purchased through the Pennsylvania Municipal Health Insurance Cooperative is used to pay the claims. Therefore, the expense recognized by the Borough is limited to the premiums paid during the year. Any potential refund of the reserve account is calculated and received by the Borough several months after year end. Total payments by the Borough to CRIT during the year were \$ 2,627,138. During 2010, the Borough received \$ 74,768 from CRIT as a refund for prior premiums paid.

#### Note 10. Commitments

The Borough has the following projects open at December 31, 2010:

| Project Description  | Electric   | Tota<br>Gas | l contractual<br>Water | commitments<br>Sewer | General      | Costs paid as of 12/31/10 | Costs to complete |

<sup>(\*)</sup> The Borough will be reimbursed by the Townships for approximately 70% of the total cost.

#### **Note 11. Conduit Debt Obligations**

From time to time, the Municipal Authority of the Borough of Chambersburg has issued Revenue Notes to provide financial assistance to local not-for-profit organizations. Banks agree to loan the funds (via purchasing the Revenue Notes) to the entities, and the Municipal Authority assigns all rights, title, and interest in, and all sums payable by the entities to the banks. The notes are fully secured by the properties financed and are payable solely from resources of the entities that ultimately receive the financing. The Municipal Authority is not obligated in any manner for repayment of the debt. Consequently, this debt and the corresponding mortgages receivable are not reflected in these financial statements.

As of December 31, 2010 outstanding note balances under conduit debt arrangements were as follows:

| Wilson College          | \$ 31,180,000 |
|-------------------------|---------------|
| Lutheran Homes          | 2,553,757     |
| Children's Aid Society  | 1,717,365     |
| Franklin County Library | 590,000       |

#### Note 12. Restatement

A restatement was necessary in the Water and Sewer Funds to correct receivables related to grant expenditures at December 31, 2009.

### OTHER SUPPLEMENTARY INFORMATION

#### **OTHER GOVERNMENTAL FUNDS**

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

<u>Liquid Fuels Fund</u> – This fund is used to account for the Borough's share of Liquid Fuels funds disbursed by the Commonwealth of Pennsylvania. The funds are legally restricted to the construction and maintenance of Borough streets and bridges.

<u>Capital Reserve Fund</u> – This fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by enterprise funds).

#### INTERNAL SERVICE FUNDS

**Stores Fund** – The Stores Department is responsible for the purchase, storage, and disbursal of inventory which is used to support the construction and maintenance functions of the Borough utilities.

<u>Administrative Services Fund</u> – Administrative Services is synonymous with the Finance Department which is responsible for the complete financial, utility meter reading, and parking meter operations as well as the operation and maintenance of Borough Hall.

<u>Motor Equipment Fund</u> – This fund supports the activities of the Motor Equipment Department which manages a rolling stock of more than 120 vehicles.

<u>Self-insurance Fund</u> – This fund is used for the purpose of funding risk which the Borough does not transfer to commercial insurance carriers or insurance pools.

**Engineering Fund** –This fund supports the activities of the Engineering Department which is responsible for furnishing engineering, surveying, drafting, and utility location information to other departments. The department also designs and inspects public works projects.

<u>Worker's Compensation</u> – This fund underwrites the risks to the Borough resulting from job-related injury or illness to its employees.

#### TRUST AND AGENCY FUNDS

Trust Funds are used to account for assets held by the Borough in a trustee capacity. Agency Funds are used to account for assets held by the Borough as an agent for individuals, private organizations, other governments and/or other funds.

<u>Police Pension Fund</u> – This fund is used to account for the accumulation of resources for pension benefit payments to qualified public safety (police) employees.

<u>Bargaining and Administrative Employees Pension Fund</u> – This fund is used to account for the accumulation of resources for pension benefit payments to qualified employees of the Borough other than police or fire department employees.

<u>Firemen's Pension Fund</u> – This fund is used to account for the accumulation of resources for pension benefit payments to qualified Fire Department employees.

<u>Citizen's Reward Fund</u> – Trust fund used to hold contributions from private citizens for the purpose of rewarding police informants for their assistance in solving crime.

<u>Sister City Fund</u> –Trust fund used to hold money that accumulates for the specific purpose of "sister city" activities. Our sister city is Gotemba, Japan.

<u>Project HEAT Fund</u> – Trust fund to hold contributions from citizens for the purpose of assisting others pay their utility bills.

<u>Payroll Clearing Fund</u> – An account to temporarily hold every dollar expended through the payroll system. This includes net payroll, all taxes withheld, miscellaneous deductions and employers' share of Social Security/Medicare expense. Theoretically, every dollar contained within the account will eventually be paid out in net pay, taxes or other deductions.

<u>Consumer Deposits Fund</u> – Agency fund used to hold deposits on behalf of utility customers. Interest is earned and "tracked" for individual customers at the Borough's composite interest rate. These funds can be used to settle an outstanding account or returned to the customer whenever a "good credit history" record is attained. These funds are also returned to the customer whenever they move outside the Borough. Occasionally, some deposits and or down payments from other individuals and organizations for other purposes are deposited in this account and held until final resolution has occurred.

#### STATISTICAL SECTION

This section of the Borough of Chambersburg's comprehensive annual financial report presents detailed information as a context for the understanding what the information in the financial statements, note disclosures, and required supplementary information says about the municipality's overall financial health.

Contents Page(s)

Financial Trends 76-82

These schedules contain trend information to help the reader understand how the municipality's financial performance and well-being have changed over time.

Revenue Capacity 83-88

These schedules contain information to help the reader assess the municipality's most significant local revenues sources, the property tax, and the earned income tax.

Debt Capacity 89-93

These schedules present information to help the reader assess the affordability of the municipality's current levels of outstanding debt and the municipality's ability to issue additional debt in the future.

### **Demographic and Economic Information**

94-95

These schedules offer economic and demographic indicators to help the reader understand the environment within which the municipality's financial activities take place.

#### **Operating Information**

96-98

These schedules contain service information and infrastructure data to help the reader understand how the information in the municipality's financial report relates to the services the municipality provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The borough implemented Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

### **Financial Trends**

These schedules contain trend information to help the reader understand how the Borough's financial performance and well-being have changed over time. These schedules include:

| Net Assets by Component                      | Schedule I |
|--|------------|
| Changes in Net Assets                        | Schedule 2 |

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the borough. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the borough. This process recognizes that, when considering the borough's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

(a) The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the borough's boundaries and dividing it by each unit's total taxable value.

### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Mayor and Borough Council Borough of Chambersburg Chambersburg, Pennsylvania

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Borough of Chambersburg, as of and for the year ended December 31, 2010, which collectively comprise the Borough's basic financial statements, and have issued our report thereon dated June 17, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Borough of Chambersburg's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough of Chambersburg's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Borough of Chambersburg's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in the internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as findings 2010-01 – 2010-02 to be material weaknesses.

To the Mayor and Borough Council Borough of Chambersburg Chambersburg, Pennsylvania

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Borough of Chambersburg's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Borough of Chambersburg in a separate letter dated June 17, 2011.

The Borough of Chambersburg's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the Borough of Chambersburg's responses and, accordingly, we express no opinion on them.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Mayor and Borough Council Borough of Chambersburg Chambersburg, Pennsylvania

### **Compliance**

We have audited the Borough of Chambersburg's compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended December 31, 2010. The Borough of Chambersburg's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements referred to above is the responsibility of the Borough of Chambersburg's management. Our responsibility is to express an opinion on the Borough of Chambersburg's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Borough of Chambersburg's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Borough of Chambersburg's compliance with those requirements.

In our opinion, the Borough of Chambersburg complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010.

### **Internal Control Over Compliance**

Management of the Borough of Chambersburg is responsible for establishing and maintaining effective internal control over compliance requirements referred to above. In planning and performing our audit, we considered the Borough of Chambersburg's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness on internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Borough of Chambersburg's internal control over compliance.

To the Mayor and Borough Council Borough of Chambersburg

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Mayor and Borough Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

| 16.804  | ARRA - COPS Technology          |  |
| Dollar threshold used to distinguish between type A and type B programs | <u>\$ 300,000</u>               |  |
| Auditee qualified as low-risk auditee?                                  | YesXNo                          |  |

### BOROUGH OF CHAMBERSBURG SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued) December 31, 2010

### **Section II - Financial Statement Findings**

### A. Material Weaknesses in Internal Control

2010-01 Proper recording grant revenue and receivables

**Condition:** During 2010, there was a restatement necessary for a grant receivable that should

have been recorded in the previous period.

**Criteria:** All revenues should be reviewed at the end of each year to determine if any

receivables should be recorded.

Cause: A lack of communication between the grant administrator (department head) and the

finance department.

**Effect:** A material restatement was made in the Water Fund for \$ 79,425 and in the Sewer

Fund for \$449,325 to correct the revenues that should have been recorded prior to

2010.

**Recommendation:** We recommend that all grants awarded to the Borough be reviewed by the finance

department and that the finance department determine the proper recording at the end

of each fiscal year.

**Response:** The Staff Accountant or their appointee shall make contact with each department

head on a regular basis to determine additions or changes to the current grant work load in progress or pending. A current updated "work list" of such grants will be provided on a regular basis to said department head. This exchange will be required

specifically at the end of fiscal year.

2010-02 Review of Fixed Asset Lives

**Condition:** There was an asset placed in service that had an unreasonable life and it was

determined that there is no internal review of fixed asset lives.

**Criteria:** Asset lives should be reviewed at the time the assets are placed into service.

**Cause:** Assets are assigned a life at the time the work order is started. However, there is no

subsequent review at the time that the assets are placed into service to verify that the

life is reasonable.

**Effect:** The financial statements could have been materially misstated, as an asset with a cost

of \$ 3.7 million was place in service with a life of 5 years that should have been 50

years.

**Recommendation:** We recommend that all asset lives be reviewed at the time the assets are placed into

service to determine if they are reasonable.

**Response:** The "useful lives" of all fixed assets will be determined by the Property

Assets/Accounting Technician and reviewed by the Staff Accountant at the time of acquisition. The determination of the useful life of any asset with a cost in excess of

\$ 25,000 will require additional approval from the Director of Finance.

### B. Compliance Findings

There were no compliance findings relating to the financial statement audit required to be reported.

### BOROUGH OF CHAMBERSBURG SCHEDULE OF FINDINGS AND QUESTIONED COSTS (Continued) December 31, 2010

### **Section III - Federal Award Findings and Questioned Costs**

A. Significant Deficiencies in Internal Control

None Noted.

B. Compliance Findings

There were no findings relating to the major federal awards as required to be reported in accordance with Section .510(a) of OMB Circular A-133.

### BOROUGH OF CHAMBERSBURG STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS December 31, 2010

2009-01 Proper recording of debt activity

**Condition:** During 2009, there was a bond refinancing that was not recorded by the Borough. In

addition, when the first principal and interest payment was made by the electric fund on the new bonds, it was not properly allocated between sewer and electric, and was

incorrectly coded to administrative expense in the electric fund.

**Status:** This was corrected in 2010.
